Subject: Teach Development, LLC

Dear Maui County Council Members:

Subject: CR 16-137

Please defer this resolution that would allow the County to enter into two leases to Teach Development, LLC for the old Maui High School campus for \$1.00 per year for a term of 60 years. It is my belief that the lands above and around Hookipa Beach Park should be preserved and used for the community only. If you have not been down to Hookipa Beach park lately, i suggest you do so on any given afternoon. It is the most used park on all of Maui. Parking is becoming a major issue and the County should understand that the land above Hookipa, near and around Old Maui High should be preserved to re-align Hana Highway mauka of its current route so that a functional park can be built makai of the highway. This is Maui's gem on the north shore. Please preserve the land for Public use.

Thank you,

Rod Taylor
