Hi Traci,  
I'm so sorry, but I only have time for short responses on these:

On Thu, Nov 16, 2017 at 4:20 PM, PC Committee <[PC.Committee@mauicounty.us](mailto:PC.Committee@mauicounty.us)> wrote:

Hi Harmonee,

During its meeting today, the Council Planning Committee continued its review of Chapter 11, West End Policy Statement, in the proposed Molokai Community Plan update. The Committee had several questions I am hoping you can help answer:

1. On page 19, Action item 11.4.03- What is the intent of this item? What is the definition of "large-scale"? What is a "social impact assessment"?

Intent is to make sure social impacts are considered when large developments are proposed.

- 1.
2. On page 20, Action item 11.4.07- What is the intent of this item? What is the scope of the "area or surrounding affected region"?

Intent is to make sure cultural impacts are considered.

- 1.
2. On page 20, Action item 11.4.08- Who is currently conducting the wildlife surveys? What is the definition of "traditional lands"?

This was intended to encourage wildlife surveys for West End. Can leave "traditional lands" out of this one - I think that was a carry-over from another Action item.

- 1.

I would appreciate a response by **November 29, 2017**. Please reply to this email so your response goes to the Planning Committee email address.

Thank you,

Traci N. T. Fujita, Esq.
