Subject: Roosters on county and Bishop estate property

Aloha, we are concerned about the placement of roosters behind our residences at lahainaluna and old dickenson streets up lahainaluna. Not only the loud crows (70 per minute) but the health concerns of the unkept, no water, cages on county and bishop estate property with no permission or authority to occupy that area behind our residences. We are working families who need our rest and are subject to

sleep deprivation and health concerns from cock fighters that live far away, even they don't want the 24 hr. shrieks at their homes, but will subject all of us to the demise. The rooster problem has gotten so out of hand and unrestrained that there are houses in the same area that have close to 500 roosters crammed in, the clamor is unprecedented with no health restrictions, humane concerns, and noise refrainment. If there was a poultry farm there would be regulations implemented, no one from state or county even has a question for them, my goodness if there were an outbreak of the avian flu strain with the bloody, stealthy, and illegal travel to various parts of Maui and return with infection- do you know what 1 sq. mile of quarantine would mean? 5 schools, three churches, three health clinics, shopping and food dispensaries, etc. not to mention the shock to tourism and real jobs in this community. The window of time to pay attention to our concerns is getting small to take responsibility for your constituency is urgent, hopefully you will take concern on this matter.

Thanx and mahalo,

The residents of Lahaina
