I vote in favor of the Wailuku Country Estates Road Dedication. As a Veteran I find the fact of opening Wailuku Country Estates to be available for VA loans. VA does not loan on private roads. The original intentions of the developer and the submitted plans where to have the roads to be dedicated by the county. It would seem logical to finalize the road dedication to complete the original accepted plan used to gain permits to develop the subdivision. All inspections are completed and ready for sign off. As one of the few 2 acre lot sub-division close to town allowing Ag with great climate for growing produce. The county assuming the dedicated roads will allow more funds to be put into Ag produce growth. Which in the future will become much more important to the county and its citizens.
Thank you Steve Hatfield lot 166 Wailuku Country Estates.808 891 0552
