Aloha:

My ohana and I have been swimming and walking at Keawakapu Beach for 37 years. We appreciate the convenient access between the Mana Kai and Days Inn Maui Oceanfront.

I used to park at the south end but parking was minimal and my disabled friend was unable to make it down the slippery steps. At the northern gravel lot, my friend can park in handicapped parking and we can help her into the ocean with minimal effort.

We are opposed to any more development on that beach. Please save our "Last Resort" for public use. We do NOT need more high rise hotels. I have recommended Maui Oceanfront to many visitors because of the simple two story complex and their kokua with parking and showers. Today the showers were out of use. I am not sure whose kuleana that is? We are also opposed to the paving of the lot. Please keep it simple.

Mahalo,

Janice and Mike Hill
