Subject: Affordable housing at Front Street Apartments Lahaina

To Honored Members of Maui Council and Whom it does concern, This letter is to implore you to take a positive stance in keeping Front Street Apartments in Lahaina, an affordable rental property.

We have been blessed to raise our family in beautiful Lahaina town. We're close to work, schools and shopping.

Commuting will increase the number of cars on the road as well as increasing cost for the people.

Living paycheck to paycheck is already a concern for many living here.

The cost of living continues to increase; yet in most cases money from working has not increased enough to meet this growth.

With a considerable rent increase, how will people be expected to survive?

Most families are working at least 2 jobs as it is. We have been living on Maui all of our lives, and displacement from our homes will cause a lot of stress .Some will become homeless.

Plus more people may be forced to rely on the Public Welfare system, which in turn causes more stress on our Social Structure.

Respectfully, I encourage you to act in favor of keeping the property affordable at Front Street Apartments.

Thank you for your consideration,

Jami B. Power
