To Whom It May Concern:

This letter is in support of the bill LU-10. Our family is in the process of submitting plans to add an Ohana onto our house located in Paia. The plans include a one-bedroom space for our mother (mother in law) to live on property so she can be close to her grandchildren. The importance of this bill is significant to our family unit as it would allow us the ability to have a separate space for her, rather than an addition to our current home. Due to the cost of living and cost of housing, this is the best option for her and for our family as a whole. If this bill were to pass, allowing separate dwellings to be built on a lot less than 7,501 square feet, this process and space would help our family financially as well as keeping us all together. We would like to move forward with building this space fully permitted and legal and passing this bill would allow us to better plan for our family's future.

Thank you for your consideration.

Sincerely,

The Schurtz Family
