Wailuku, HI 96793

Honorable Alan. M. Arakawa  
Mayor, County of Maui  
200 South High Street  
Wailuku, HI 96793

APPROVED FOR TRANSMITTAL  
  
Mayor Date

For Transmittal to:

Honorable Riki Hokama  
Chair, Budget and Finance Committee  
Maui County Council  
200 South High Street  
Wailuku, Hawaii 96793

**RE: REQUESTS/QUESTIONS FROM THE APRIL 4, 2018 MEETING (PD-2)(BF-1)**

Dear Chair Hokama:

Thank you for the opportunity to respond to your questions. On behalf of the Maui Police Department, I am providing the following information in response to your questions:

**1. The Department is considering a parking lot photovoltaic ("PV") project at the Wailuku Police Station as part of Countywide Police Facilities (CBS-1010).**

**a. What will be the total kilowatt capacity of the project? How will the energy produced by the PV panels be used? Are there plans for battery storage? (RH)**

*At this time we do not know what the total kilowatt capacity of the project is. At this point the design plan is nearly completed for the parking lot renovation. However, the use of PV has been a discussion point and research needs to be conducted and reviewed for the feasibility of an alternate source of energy for the Wailuku Police Station.*

*If feasible, the energy produced by the PV panels would ultimately be used toward energy usage at the Wailuku Police Station.*

*Plans for battery storage was briefly discussed, but there was not enough information offered as to the inclusion of a battery storage system. Additional funding toward this project will provide the data to make an informed decision as to the feasibility of PV for the Wailuku Police Station.*

**b. Will the project be County-owned or will the County enter into a power purchase agreement for the design and installation of the PV system? (MW)**

*At this time, we have not explored which program would be the most beneficial to the Department. The funding requested will assist in finding that answer.*

**c. What is the anticipated project completion date? What is the approximate total project cost? (RH)**

*Should there be funding for research into PV in addition to the parking lot renovation, we estimate that the project could be a CIP project for FY2020 and completed within that time frame.*

*The estimated cost for just the Parking lot renovation without any PV is 1 million dollars by itself. In considering the PV project with this, the cost could significantly be elevated millions of dollars based on estimates discussed during a general meeting with the PV idea was first discussed. The requested amount for the FY19 project was for the research and development in getting the most accurate data, technology, and figures in determining the best course of action to proceed with in order to determine if this is the best investment return for the Department, our community, and the environment.*

**d. Has a master plan been established to implement energy saving measures throughout the Department and on other Department facilities? Explain. (RH)**

*At this time, the Department has been in contact with Maui Electric Company by the encouragement of Fred Redell. The program or partnership we are trying to facilitate is known as the FAST DEMAND RESPONSE PROGRAM. The Fast DR program, in layman's terms will allow MECO to take the Wailuku Police Station off the main grid by switching us onto our back-up generators. Thus, taking stress off the main grid and at the same time receiving a buy back from MECO for the power saved.*

**2. Relating to a Police Captain position (PD-0406, page 15-3 of the Budget Details):**

**a. Why was a salary correction needed resulting in a \$500 salary decrease? (RH)**

*Position PD-0406 was previously filled by a Captain with 39 years of service, hired in 1979, who was then replaced by another Captain with 27 years of service, hired in 1991. It is due to this difference in service time, and therefore step level, that resulted in the salary decrease between the two fiscal years.*

**b. Does the \$134,972 annual salary noted in the Budget Details include the Excluded Management Compensation Plan (EMCP) and Standard of Conduct Differential (SOCD) differentials? (RH)**

*The salary listed of \$134,972 is per the Excluded Management Compensation Plan (EMCP) and it does also include SOCD.*

**3. Provide a list of licenses or certifications required by position title. On average, how many training hours are required annually to obtain such licenses or certificates? (RH)**

*The breakdown of various training requirements and conferences for personnel to attend in FY2019 is attached by section, however, there is no specific breakdown of required hours by position to obtain such licenses and certificates as some are for proficiency and to gain knowledge and expertise in a respective specialized field. This then assists with investigations and with validity in court testimonies. Others are to explore technological capabilities such as in FY2017, Department personnel attended the Drone World Expo and the Body-Worn Camera forum. In addition, in FY2019, the Department is hoping to expand upon its forensic and cyber capabilities with the training requests reflecting and supporting that objective. The Department tries to obtain and use grant funds for training that are in line with its parameters and specializations whenever possible.*

**4. Provide an itemized breakdown relating to a \$41,000 increase in Miscellaneous Supplies (index code 6035, page 15-8 of the Budget Details). (RH)**

*An itemized breakdown of Miscellaneous Supplies, 910018B, 6035, page 15-8, is enclosed.*

**5. Are there prohibitions for the use of the annual gun allowance for other than firearm maintenance or firearm skills training per the collective bargaining agreement? (MW)**

*Per the State of Hawaii Organization of Police Officers (SHOPO), Bargaining Unit 12, Collective Bargaining Agreement, the Firearm Allowance is given directly to the sworn officer to be used as is referenced in the contract. There are no prohibitions if the allowance is used for other than firearm purchase or maintenance.*

**“Firearm Maintenance Allowance** - Effective July 1, 2017, the Employer shall provide to employees authorized to carry a firearm as a condition of employment on a 24-hour basis a sum of \$1,000.00 per fiscal year for the proper care and maintenance of weapons and accessory personal safety equipment related to their employment issued by the Employer, and for the purchase, care and maintenance of supplemental weapons, including ammunition approved by the Employer. Fifty percent (50%) of such allowance shall be paid on or about July 1st (e.g. \$500.00) and January 1st (e.g. \$500.00) of each fiscal year. If the employment of the employee commences after July 1st or January 1st of the fiscal year, the sum shall be paid prorated from the date hired. The allowance paid shall cease during periods of suspension of five (5) or more days and the Employer may recover any overpayment on a prorated basis retroactive to the first day of suspension. If the employment of an employee is severed prior to the end of the fiscal year, the Employer shall be

*entitled to recover on a prorated basis.”*

**6. Provide the balance of the Forfeiture Fund for FY2017 and FY 2018, to date. (RH)**

*The Forfeiture Fund balances are listed below for FY2017 and FY2018 to date:*

	<b>Fed Treasury</b>	<b>Fed Justice</b>	<b>State</b>	<b>Total</b>
FY18	14.03	14,146.52	44,569.36	58,729.91
FY17	13.88	143,233.89	88,659.73	231,907.50

**7. Relating to the Intelligence Analyst Specialist expansion position, explain the need to purchase a cell phone for \$1,200 (index code 910026B, page 15-28 of the Budget Details). (RH)**

*The \$1,200 cost for the cell phone relating to the Intelligence Analyst Specialist expansion position includes the monthly service fee for the cell phone in addition to the purchase of the phone.*

*The need for the cell phone for this expansion position includes:*

- Analyst from time to time will accompany Officers on field operations to coordinate what types of documents/items should be seized for analysis. There are normally multiple sites to which this must be coordinated.*
- Officers do not utilize our radio system to conduct these types of operations due to the security of transmissions & delay in transmissions.*
- The analyst is not able to use a landline to monitor field operations as one line is used for communication with field operators while the land line if needed would be used to run simultaneous checks with records, dispatch, and joint agencies.*
- Vice work in general is a round-the-clock enforcement effort. The analyst may be called out at any time to assist with investigations.*
- On many occasions, officers in the field may not be able to communicate needs via audible transmission (i.e. surveillance in the field). Their need for technical assistance and data are often times sent via text message.*

**8. Relating to the vacancy log the Department transmitted to the Committee on April 3, 2018, how many of the Department’s current vacancies are not filled? (KK)**

*The vacancy log lists 81 total vacancies, currently, all 81 are not filled. Of those listed, 43 are for Police Officer I and Police Officer II positions, 5 for Detective/Sergeant positions, 20 for Emergency Services Dispatch positions and the remaining 13 are other non-sworn positions. There are currently 16 recruits in the nine thousand series, non-funded positions assigned to the Plans & Training section. Once they complete their recruit class, they will then fill 16 of the 43 police officer positions listed on the vacancy log.*

*There is continuous recruitment for following positions: police officer, emergency services dispatcher, police evidence custodian, office operations assistant (Hana), public safety aide (Lahaina). There are also currently 20 conditional offers of employment for police officer*

*positions and another 10 for Emergency Services Dispatcher positions. However, pending the outcome of the various stages of the hiring process through background investigation, polygraph, and psychological assessment, that amount will likely decrease.*

**9. Has the Department considered restructuring the current beat boundaries to meet coverage demands given the number of Police Officer vacancies? Explain. (RH)**

*The department is not currently looking at restructuring its beat due to the current vacancies. Currently, the Wailuku District has six vacancies. Though we have vacancies, our district is still able to staff all 11 funded beats each and every shift. With the expansion request, we will utilize those positions to fund an additional upcountry beat to address safety concerns for the public and the officers and to provide an additional officer to address the calls for service in the upcountry area. The past two years have averaged 25,000 plus calls for service upcountry.*

*The upcountry boundary includes:*

*Hana Highway at Baldwin Beach Park, heading east towards Hana to Mile Marker 12 (360) Kaumahina State Park.*

*Haleakala Highway at Keahua Junction, heading mauka up to the Ranger Station at Crater Road.*

*Kula Highway out to Kahikinui.*

*Pulehu Road at Omaopio Road intersection, heading mauka.*

*Currently, upcountry has five funded beats to cover this area. With the sixth beat, officers will be able to provide better response time and service to the area.*

**10. Provide the average retention rates for Police Officers I, II, and III for the last five years. Include, by rank, the average length of employment and the reason for leaving (for example, work hours, pay, relocation, found other employment, etc). Further, identify whether the employee was recruited from off island for the job. (RH)**

*At this time, we do not have the data for the past five years but will continue to work on compiling a database with this information. However, since the beginning of FY2018, for sworn personnel, there have been 14 resignations, 8 retirements, and 2 inter-governmental movements.*

*Of the 14 resignations in FY18 they were due to the following at the indicated ranks:*

*Change in Career Path: (2) Police Officer I*

*Resignation/Termination: 4: (3) Police Officer II's and (1) Sergeant*

*Resignation/Medical: (1) Police Officer II*

*Relocation for family/financial reasons: (7) Police Officer II's*

*Of the 8 retirements in FY18, all with over 25 years of service to the Department:*

*Police Officer II: 2*

*Sergeant: 4*

*Lieutenant: 2*

*Of the 2 Inter-governmental movements:*

*Police Officer II: 2*

*Based off of Exit Interviews when leaving the Department, those that relocated to the mainland were in relation to family being there and/or the housing market and affordability of purchasing a house. After checking with DPS, there is no tracking or data available to determine where an employee was recruited from.*

**11. Identify the recruitment incentive available for Emergency Service Dispatchers. Is this a monthly benefit and how much is the incentive? Is the incentive tied to the length of employment? Has the Department considered a similar incentive for Police Officer recruitment?**

*The Emergency Service Dispatchers (ESD) retention incentive for FY2018 is \$60,000, which breaks down to a monthly benefit of \$165 per month per ESD. The request for FY2019 is \$152,000, which will provide a monthly benefit of \$350 per month. The incentive is not tied to the length of employment and is provided equally to each ESD. At this time, there has not been any discussion on a similar incentive for Police Officers.*

**12. Please confirm whether government procurement contracts are used to purchase miscellaneous supplies for the Department as a cost saving measure. (RH)**

*Yes government contracts are used to purchase miscellaneous supplies. The Purchasing Department has price lists for most office supplies and janitorial supplies. Purchases made for various IT items, such as printers and toner, are purchased following the NASPRO procurement contract when applicable.*

**13. Provide a cost breakdown relating to \$120,000 in R&M-Services/Contracts (index code 6138, page 15-95 of the Budget Details). Is this increase based on a change in the mobile data carrier used by the Department? (RH)**

*This service area provides mobile data capabilities for all the mobile devices, laptops, within the Department's fleet vehicles included in an annual contract with the mobile data service provider. There is no change in the data carrier used by the Department. The monthly charge for the service included in an annual contract is averaged at \$9,695 per month for 230 units and devices. The 2016 actual was \$161,286, the 2017 actual was \$132,579, the 2018 adopted was \$92,000.*

**14. Of the total number of vehicles in the Department's fleet, provide the number of marked vehicles versus unmarked vehicles. (RH)**

*The Department currently has 144 Marked and 167 Unmarked vehicles, a breakdown by vehicle and location is enclosed.*

**15. In accordance with the Department's Vehicle Replacement Policy, provide a breakdown, by type, of the number of vehicles the Department will need to replace annually for the next five years? (MW)**

*Based on our rotation policy, approximately 50 vehicles have been requested per year for replacement as follows.*

*FY2016: 53 vehicles requested for replacement (25 Marked, 28 Unmarked),  
14 approved (13 Marked, 1 Unmarked)*

*FY2017: 51 vehicles requested for replacement (23 Marked, 28 Unmarked),  
11 approved (11 Marked, 0 Unmarked)*

*FY2018: 54 vehicles requested for replacement (24 Marked, 30 Unmarked),  
20 approved (10 Marked, 9 Unmarked, 1 Molokai Animal Control Vehicle)*

*FY2019: 61 vehicles (32 marked, 29 Unmarked)  
Reviewed by Council: 31 vehicles (18 Marked, 13 Unmarked)*

**16. How many more Automatic External Defibrillator (AED) units will the Department need to purchase annually to reach the required inventory level for personnel needs? (RH)**

*The Department currently has 51 operational AEDs in service. The recommended industry standard is for AEDs to remain in service for 6-8 years. We ask to replace six (6) AEDs per fiscal year (one per Patrol District).*

**17. Other than a cost difference of \$833 per unit, are AED units needed by the Department of Police and the Department of Fire and Public Safety the same equipment? Would there be any cost savings to the department if they were purchased in bulk? (RH)**

*After conferring with MFD, they related that they have specific requirements for the AEDs, which exceed our needs. That is likely responsible for their additional \$833.00 cost per unit. I don't have the answer if there would be any cost savings to the respective Departments if they were purchased in bulk. That is something that would have to be negotiated by the Finance Department as their own rules prohibit/restrict us from combining equipment from other departments into one order. Further, I do not believe that we use the same vendor to purchase the AEDs.*

Honorable Riki Hokama  
April 11, 2018  
Page 8

**18. What is the Department's sick leave use by program, by position, for FY2016, FY2017, and FY2018, to date? (RH)**

*The sick leave use for the Department, separated by program and identified by position number for FY2016, FY2017, and FY2018 is attached.*

**19. How has the implementation of Chapter 8.34, Maui County Code, impacted the number of false alarms the Department receives and by how much? (RH)**

*Since the implementation of MCO Chapter 8.34, the department has seen a decrease in the amount of alarm responses. It seems that alarm companies are taking a proactive role in determining if a response by police is necessary. The program went live on October 3, 2016 and has completed the first two years of the contract with the vendor. The department has recently moved forward with another two year extension with the vendor.*

*Some stats are as follows:*

*In Calendar Year 2016, the department received 5,576 calls for alarms, 938 calls were canceled by the alarm company before officers responded to the location. Of those calls, eight were bona fide cases.*

*In Calendar Year 2017, the department received 4,689 calls for alarms, 1,120 calls were canceled by the alarm company before officers responded to the location. Of those calls, seven were bona fide cases.*

**20. Does the Department utilize a grant through the United States Homeland Security to provide active shooter training for County employees? If so, what is the name of the grant and how much funding does the grant provide? (RH)**

*We are currently not receiving any funding through the United States Homeland Security, or any other agency, to fund active shooter training for County employees.*

Please refer to the enclosures for the requested information. Thank you for your attention to this matter. If you have any further questions or require further information, please do not hesitate to call me.

Sincerely,

Tivoli S. Faamu  
Chief of Police
