Subject: Support for David Goode appointment to Director of the Department of Public Works

Aloha, Chairman Molina,

I'm writing to offer my support for David Goode to continue serving as Maui County Director of Public Works. I've known David for the past nine years and know that has the track record, qualifications and experience to continue performing well in this position. Rather than sharing a long list of his accomplishments, I will instead comment about his intangible qualities. In my opinion, what sets David apart from most administrators is his calm and intelligent approach to working through complex and politically charged issues. He has the temperament and intellect to continually pursue solutions that benefit the community. In my experience, the qualities David possesses are difficult to find and to have someone like him working for the county is a gem to be kept. I hope the county council will agree that David Goode should continue to serve us as Director of Public Works.

Mahalo for taking the time to consider my brief testimonial in support of David Goode. Please let me know if you have any questions or need more information.

-John
