I congratulate Paul Cheng for addressing the public needs for low cost housing. With the County of Maui, Paul has worked out a plan that he gets \$300,000 per unit and he gives the residents of Maui County homes that they can buy at \$117k to \$383K. Every developer should look at this project and emulate it because deals favorable to our residents and providing an adequate profit for the developer are what we need to keep our residents from leaving Maui for reasonable priced housing. I urge the entire Council to approve Bill 152.

I support to pass this bill. Being born and raised in Lahaina has made me realize how little housing there is for the people of Lahaina. I support this for the better of our future and to have affordable housing for future generations.

Being born and raised in the island of Maui and growing up moving from house to house because pricing went up and my family never being able to buy a house to live in forever because of the pricing has only made me grow more and more angry at the people who don't even live here full time. Passing this bill will impact so many natives in such a positive way!

Can't imagine why anyone would Oppose. In my opinion because I am middle class, I believe all middle lower-class people are very hard workers that put in super long hours. The fact that housing is unattainable for all these people tells me something is terribly wrong!

Thank you for supporting all of us struggling to house our families!

Finally, at last. There needs to be measures that ensure that the housing - on any market level - that is intended mainly for Kama'aina or those with long standing family ties that want to return to their ohana is not purchased by anyone with tons of money, looking to profit from those of us that call Maui our home for generations and are not looking to escape the rat-race of the 'mainland' that is currently plaguing our state. We do not have the luxury to pack up our luxury autos, sell our million dollar homes and seek out paradise. We just want to have four walls, running water, electricity and a safe place to live out our lives that don't include early retirement, dining out at \$30+ per entree or vacationing several times a year. The decent, hard working kama'aina - in my view - those that are not seeking a kama'aina discount - need guidance and assistance in making the 'American Dream' a reality rather than watching as our much needed affordable housing being occupied by those that have relocated.

West Maui is in desperate need of workforce housing. The hospitality industry is in need here in Lahaina and people can't afford to live and work here. The rents are skyrocketing. I want to make this my permanent home and need housing like Pulelehua to make it possible. I have lived here 9 years and have been waiting for a housing project like this specific one. I fully support affordable housing here on west side. As a resident now for over 13 years, every time I think I'm at the right stage to be a home owner there is some new govt issue that prevents that. Land ownership has time after time been unaffordable and I hope this truly means it will be affordable housing and I'm a home owner. Able to make changes to my own home as I'd like and not have some housing agency tell me what I can and can't do in my yard

I'm a 55 year old female professional working resident on West Maui, an entertainer for over 35 years and over 13 years on west Maui. I'm in full support of Pulelehua, especially since the economic impact of Covid, rising rental cost, gas, traffic, parking and plain lack of housing near my primary work place has been a stressful burden. I fully support and hope to be able to purchase a place of my own or at least rent something clean, comfortable that I can afford. I am still recovering from the loss due to covid lock downs and the cost of living.

I hope to see this opportunity prioritize the locals born and raised on the island of Maui. Mahalo Junya Nakoa for looking out for us, the people of Maui, and sharing information on affordable housing so that we may continue to live on our 'aina.

We need more housing at an affordable rate for local families that are from the area. I am close to being pushed out by high housing prices and a project like this could really help the local community.

My name is Dustin Ompoy been born and raised on this island. Everytime my family and I try to apply for affordable housing we end up not getting it and it ends being sold to the rich people who have no residency here and end up selling it for more money or end up living there for only 2 months out of the year. I support this for all the Hawaii residents born and raised here to actually live in affordable homes with all Hawaii residents born and raised here as well and not be bought out of our own land by people who come here and try to change the way of living here and people who come and don't appreciate the people born and raised on the islands.

Agenda Item: eComments for BFED-32(10) Rule 7(B) LOOPHOLES IN REAL PROPERTY TAX LEGISLATION, INCLUDING SECTIONS 3.48.361 AND 3.48.466, MAUI COUNTY CODE (BFED-32(10))
