Aloha council members,

I am writing in **STRONG** support of resolution PIA10(11) and PIA 10(12). I believe that all boards should have representation from the hawaiian and conservation community. What's going on around Hawaii is simply not right and I beleive that this is a positive step in the right direction. This would allow more fairness and allow us to collectively work together on important issues when it comes planning. Please pass these resolutions.

Thank you,
