Committee
Report No. _____

Honorable Chair and Members
of the County Council
County of Maui
Wailuku, Maui, Hawaii

Chair and Members:

Your Economic Development and Budget Committee, having met on February 6, 2020, makes reference to the following:

1. County Communication 20-52, from the Budget Director, transmitting a proposed bill entitled "A BILL FOR AN ORDINANCE AMENDING ORDINANCE NO. 4985, BILL NO. 34 (2019), RELATING TO THE ISSUANCE OF GENERAL OBLIGATION BONDS OF THE COUNTY OF MAUI ISSUANCE, SALE AND DELIVERY OF SAID BONDS (DEPARTMENT OF ENVIRONMENTAL MANAGEMENT - CML PHASE VB EXTENSION LEACHATE RECIRCULATION SYSTEM)."

The purpose of the proposed bill is to amend the Fiscal Year ("FY") 2020 general obligation bond authorization ordinance under the Department of Environmental Management, Wailuku-Kahului Community Plan Area, Sanitation, by adding the CML Phase VB Extension Leachate Recirculation System project in the amount of \$650,000, for design and construction of infrastructure to expand the recirculation of leachate into the Phase VB Extension waste mass.

2. County Communication 20-53, from the Budget Director, transmitting a proposed bill entitled "A BILL FOR AN ORDINANCE AMENDING ORDINANCE NO. 4985, BILL NO. 34 (2019), RELATING TO THE ISSUANCE OF GENERAL OBLIGATION BONDS OF THE COUNTY OF MAUI ISSUANCE, SALE AND DELIVERY OF SAID BONDS (DEPARTMENT OF ENVIRONMENTAL MANAGEMENT - CML EXTENSION OF

PRIMARY LITTER SCREEN AND DRAINAGE
IMPROVEMENTS).”

The purpose of the proposed bill is to amend the FY 2020 general obligation bond authorization ordinance under the Department of Environmental Management, Wailuku-Kahului Community Plan Area, Sanitation, by adding the CML Extension of Primary Litter Screen and Drainage Improvements project in the amount of \$500,000, to design and construct an extension to the 50-foot high litter screens along the Pulehu Road property line to service the new Phase VB Extension disposal cell.

Your Committee notes the CML Phase VB Extension Leachate Recirculation System project and the CML Extension of Primary Litter Screen and Drainage Improvements project are included in the FY 2020 Budget. However, the Council did not authorize the use of bond funds for the project. These bills would grant bond authorization for the respective projects.

A representative of the Department of Environmental Management explained that leachate is the substance that settles at the bottom of landfill when liquid passes through the waste. The recirculation system will collect the leachate and reinsert it through the landfill, cleaning the leachate.

The Representative also explained that the litter screens the Department will obtain will be 30 feet tall. The screen size was selected in consideration of criteria such as the capacity of the landfill, the cost weighted against the benefits of larger screens, and the height limits within the property’s land use designations.

Your Committee voted 9-0 to recommend passage of the proposed bills on first reading and filing of the communications. Committee Chair
