Subject: Testimony

Aloha committee,

This is my testimony for the Molokai Community Plan. Being an ex Moku Rep for the Aha Kiole/Aha Moku, this is my strong feelings for putting the Mana'e policy with the Molokai Community Plan. I feel that the 4 Moku's environment are different and I think Mana'e should be decided only by the people of Mana'e, Hoolehua by their people ect. I feel that the outside islands should stop envnading our shoreline resources that the 4 districts on Molokai's people, are dependant on (4 Moku's). Keep the policies only with the people that live within their Moku's and you won't have any problems between the four moku's.

As for the Aha Kiole, I feel they (the reps that are in place now), been in for a long time and there hasn't been any new elections and participation with the Aha Kiole/Aha Moku. In there mission, as John Kaimikaua had put together, should have elections and I've only attended one election since the Aha Kiole started. So there is no due process to Johns recreation of the Aha Kiole and, allot of complaints because of two reasons 1. No participation and 2. Same people holding the same positions since the Aha Kiole started. I strongly feel that Uncle Mack and Aunt Opuulani have allot to offer, as far as educating the youth on our traditional and cultural practices. Uncle macks sons have allot of his knowledge and they need to step up to the plate and become the new po'o for their decedent practices. Aunt Opuulani as well.. Mahalo and Aloha
