Subject: Testimony for 9/11/2020 Council meeting: WUDP process needs to include Ha'ikū

For the 9/11 Council meeting WUDP discussion, please consider the following: 1) Defer approval of the Maui Water Use and Development Plan (WUDP) at the 9/11/2020 meeting 2) Require the County Water Department to attend a Pa'ia-Ha'ikū Town Hall to • answer the community's questions, • tell the community what is being proposed and • hear the community's mana'o BEFORE the first Council vote on the WUDP

Issues that need to be looked at,

Could you please tell me why all this development of Haiku water that will be sent to South Maui when there are some 400 properties in Haiku waiting for meters?

Also there are families upcountry that have been waiting for meters for more than 20 years. If there is excess water that could be sent to other areas of the island the residents upcountry should get it before the developers in So Maui.

Thank You
Steven Forman
