Mayor Date

For Transmittal to:

Honorable Keani Rawlins-Fernandez  
Chair, Economic Development & Budget Committee  
Maui County Council  
200 South High Street  
Wailuku, Hawaii 96793

Dear Chair Rawlins-Fernandez:

**SUBJECT: FISCAL YEAR ("FY") 2020 BUDGET (TD-1) (EDB-1)**

The Department of Transportation (DOT) hereby transmit the following responses:

**Question:** Provide a map of Maui indicating the location of all existing bus stop shelters and all planned bus stop shelters.

**Response:** Please see attached maps.

**Question:** Provide the estimated cost of each planned bus stop shelter and the estimated time frame for construction.

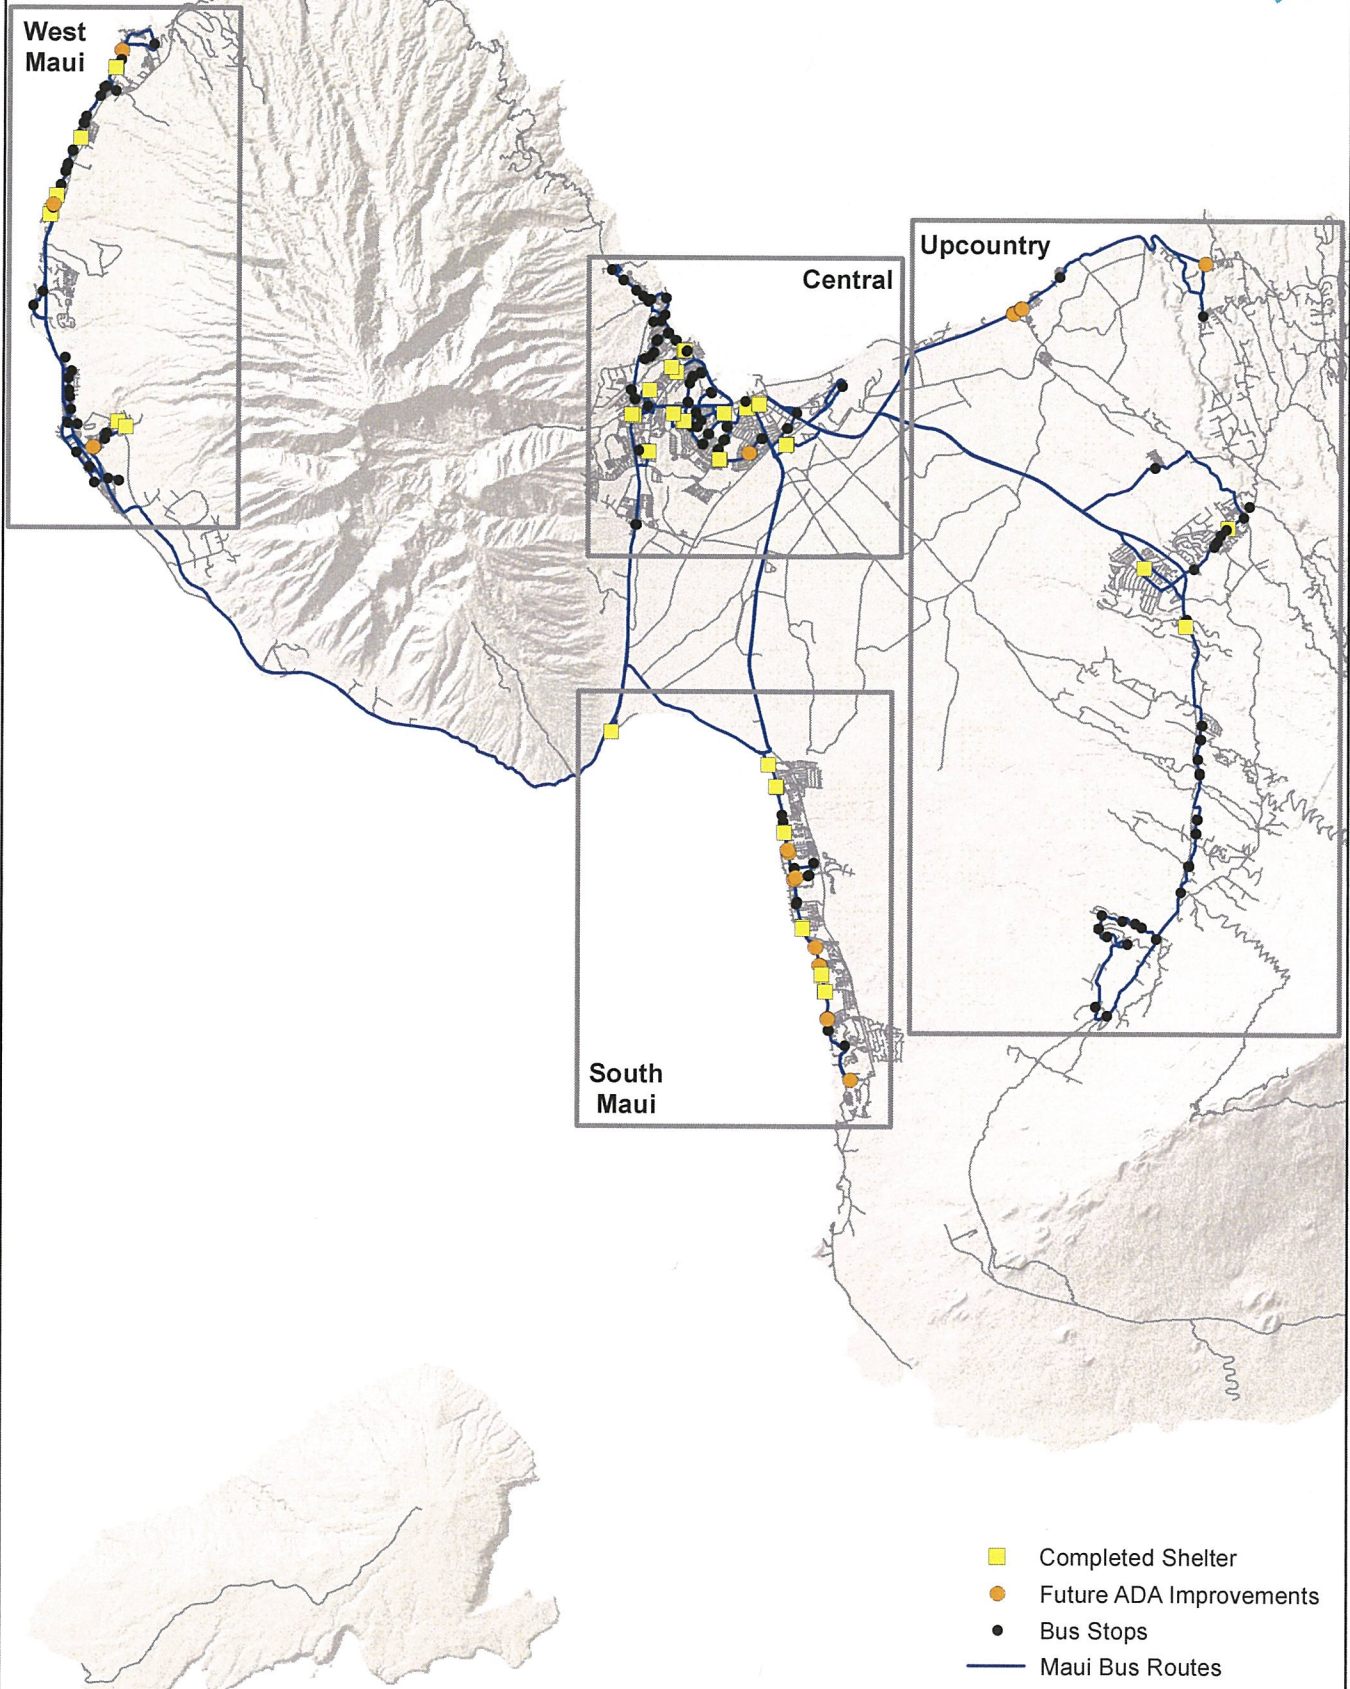

**Response:** Please see the attached spreadsheet for detailed information. Please note that bus stops are reviewed to determine if it meets the minimum qualifications for a bus stop improvement. The improvement is either installing a bus stop shelter with transit amenities or making site improvements for ADA compliance which may or may not include benches or other transit amenities. Based on the Maui Bus Stop Planning and Design Services study done by KFH Group, bus stops with ridership equaling or exceeding 25 boardings per day are priority candidates for new shelters. The list provided in the attached spreadsheet are being considered for ADA site improvements that would include a bench (and not shelters). Shelters could be installed at these stops in the future should the ridership equals or exceeds 25 boardings per day. The estimated planning and design cost for each stop is approximately \$25,000. The cost of improving each bus stop will vary based on its unique set of conditions. When construction funds are available and the planning and designs are completed and shovel ready, the time frame for the ADA improvements would be approximately one year.

Sincerely,

A handwritten signature in black ink, appearing to read 'M. Takamori', with a stylized flourish at the end.

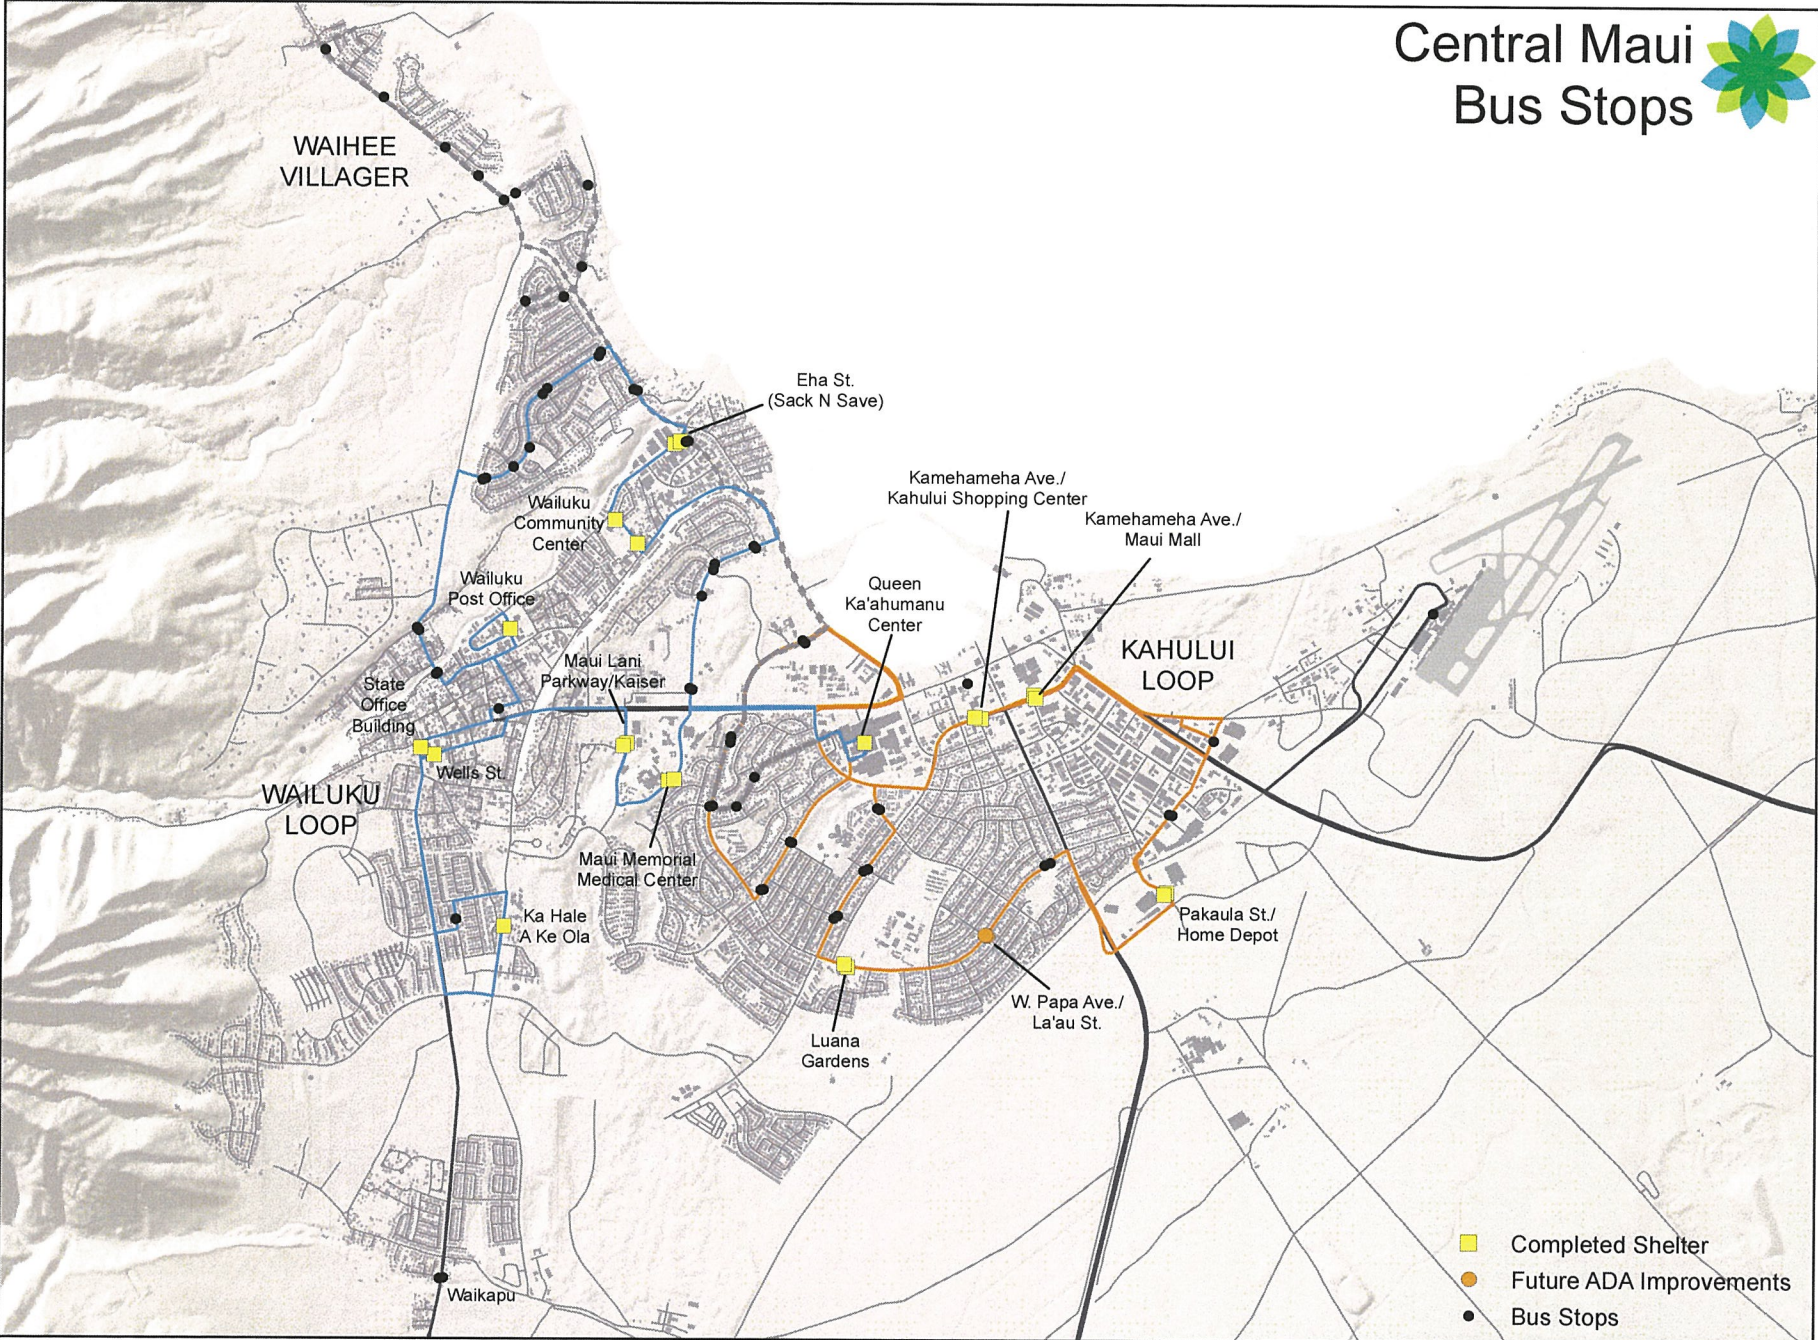

Marc I. Takamori  
Director, Department of Transportation
