Subject: Public Testimony for Plastic Bag exemptions

I absolutely agree on removal of the exemptions for restaurants and any other possible loophole that would be detrimental to the cause. I understand there are some exemptions that need to stay in place as it relates to food safety, however I also feel that offering options to plastic for such items could serve as an education piece in empowering the community beyond the bills. For example, I have reusable vegetable bags and bulk bags to use when shopping at the markets so I don't have to resort to using produce plastic bags.

Mahalo,

Jenny Roberts
