Subject: aloha, please save front street apartment complex affordable status

aloha,

please help to support the need to keep affordability at the front street apartment complex in lahaina that houses over 300 folks. owner is going to switch to "market rate" (whatever rent cost the market will bear by august 2019). this means an increase in the Maui homeless rate by 300 folks as the people who live at front street are all in the senior, disabled VET, working families with school age children lower economic range and more. mahalo nui loa, chi pilialoha guyer, tenant at front street apartment complex.
