ORDINANCE NO. _____

BILL NO. 105 (2017)

A BILL FOR AN ORDINANCE ESTABLISHING A NEW CHAPTER 20.50, MAUI COUNTY CODE, PROHIBITING THE SALE AND USE OF SPF SUNSCREEN CONTAINING OXYBENZONE AND OCTINOXATE

BE IT ORDAINED BY THE PEOPLE OF THE COUNTY OF MAUI:

SECTION 1. Oxybenzone and octinoxate have significant impacts on the environment and especially to the marine environment, including: causing mortality in coral planula and gametes, increasing the susceptibility of coral to undergo coral bleaching at temperatures lower than 87.8 degrees Fahrenheit, and causing potential damage to coral and other marine organisms' genomic integrity. These compounds have also been shown to degrade coral physiology and coral reef community integrity which reduce acclimation and resiliency to climate change factors, and degrade coral reefs by inhibiting recruitment. Increased probability of endocrine disruption, either causing demographic feminization in fish or other types of reproductive diseases, has been observed in marine invertebrate species (e.g. *sea urchins*), vertebrate species (e.g. fish such as wrasses, eels, and parrotfish), and mammals (in species similar to the Hawaiian Monk Seal).

Contamination of oxybenzone and octinoxate in Maui coastal waters acts as a pseudo-persistent pollutant, meaning that environmental contamination levels are constantly refreshed and renewed, every day, by swimmers and

beachgoers. Swimming and other water activities mean that these chemicals pollute Maui waters unless actively mitigated.

The Council finds and declares that, to preserve the health, safety, welfare, and scenic underwater and natural beauty of Maui, the sale and use of SPF sunscreen containing oxybenzone and octinoxate must be regulated.

SECTION 2. Title 20, Maui County Code, is amended by adding a new chapter to be appropriately designated and to read as follows:
