Subject: Water Use and Development Plan for Haiku

Aloha,

I am writing to share my concern about the proposed water use and development plan. Haiku residents need to be able to find out what is really planned and what is being done to protect our watersheds and family wells. A promise of future studies is not enough. Also, the WUDP is primarily based on 2014 water use patterns when we should be shifting to increased opportunities for small farms.

I hope you will allow time for transparency and community input. I also hope that you will prioritize sustainability and care of the aina.

Thank you for your consideration,

Maya Bendotoff
