Aloha, My name is Paul Laub and I am a former President of the Maui County Veterans Council, current President of the West Maui veterans Club,inc, and Publisher of the Veterans newsletter hivets.com. (please feel free to request a free subscription).

I would like to address the bill 110.,reducing taxes on Veterans and survivors. May I suggest that due to the tragic (for the poor) inflation, it would really make sense and be generous if the county, instead of charging the reduced tax, instead paid to the survivors that amount annually. Currently that is very little help, but any help is greatly appreciated, and who knows maybe this could lead the way for other counties and states to help those persons families who gave their all.

Thank you, for your kokua, Paul Laub
