Subject: Please fair rent prices for Maui residents

Where will all the servers and humble grassroots kine folks who tend to the whims of the rich, where will we live. Please enforce a system that cares for us and creates fair housing prices and rental commission control. The over use and abuse of vacation rentals are hurting the economy, not helping it. it is seasonally worse in synce with high tourist occupancy. Let the tourists stay in allocated areas, at allocated rents which feed the long line of Maui residents, rather than find "deals" which are pushing us local residents out.

I have two children and as a single mom rent is scariest factor in our lives. I have to make choices between living under a roof or sending my children to good schools, after school programs, and even new clothing. We are modest hard working folks who deserve a good environment for children and women at a cost we can afford without competing with those in an economic stratusphere that let;s them vacation here.

Thank you for your time and consideration!

Amana Ohana,

Aloha,

Blair
