# AMENDMENTS TO CHAPTER 16.13 – COMMERCIAL SIGNS

HHT-10

# THREE PRIMARY OBJECTIVES

- ▶ 1. Clarify that the commercial sign ordinance does not regulate content.
  - ▶ 2. Make it easier to understand and enforce (and, in some cases, more permissive) without a major overhaul.
  - ▶ 3. Add a new definition for “drive-through sign” and standards to make most of these lawful.
- 
- A series of white lines of varying lengths and orientations are positioned in the bottom right corner of the slide, creating a modern, abstract graphic element.

# CONTENT REGULATION

- ▶ Affirmative statements
- ▶ Delete "color"

# EASIER TO UNDERSTAND

- ▶ No more mixture of sign purpose and type
  - ▶ Window and ground signs no longer count toward sign allotment
  - ▶ Allow two business ID signs per frontage and two subdivision ID signs per project (same size limit)
  - ▶ Add business ID signs to golf courses and parks
  - ▶ Allow larger signs for larger buildings base on façade area
- 
- A series of white diagonal lines of varying lengths and thicknesses, located on the right side of the slide, extending from the middle to the bottom right corner.

# DRIVE-THROUGH SIGNS

- ▶ Fast food restaurants, gas stations, pharmacies, car washes
- ▶ 32 square feet total per drive-through lane
  - ▶ **PROPOSE TO INCREASE THIS TO 48 SQUARE FEET**
- ▶ Many gas stations will be compliant; many fast food restaurants will have to make modifications (six-month compliance window)
