I, Tanya Maile Naehu support Jeana Naluai, owner of Hawaiian Spa Maui LLC DBA Ho'omana Spa which operates a Hawaiian Spa and Cultural Education Center on agricultural property at 1550 Piihola Road. I have worked closely with Jeana and her students and staff members. They are amazing people that have created a wholistic environment to nurture healers, healing plants and healing hands. The very core of this is a strong sense of giving back to the community not just making money. She and her business are incredible assets to the Maui county community. The business and its revenue actually allow for her to offer more free healing and educational services to the community. Ideally she has built a business, home and sanctuary for those who need to be healed as well as those who want to learn to heal others. For several years Jeana has visited Molokai with about a dozen massage therapists that she trained herself. During their visits their kuleana was to offer free massages to Molokai residents. I helped to coordinate these lomi marathons at Keawanui Fishpond. Besides that she offered 2 free scholarship for lomilomi training to 2 Molokai born and raised women. Now they are able to service Molokai people! She has and continues to be more about giving than making money. But the business being at her residence has allowed her to do so much more. Please see the great potential in these types of business, it offers so much more time, flexibility and freedom to the business owner since they are in their own space on their time which translates to a happy, thriving, prosperous business that can give whenever they please.

Mahalo me ka haahaa, Tanya Maile Naehu
