- 1. Why are you interested in serving on a board, commission or committee?**
 - a. I am interested in serving on the Molokai Planning Commission because I feel as though the voices of our community need to be heard. The community are the experts and resources needed in any successful planning decisions. I have learned this first hand in the work I am currently doing. I feel as though I could be that communication bridge.
- 2. Community and/or professional organizations or activities you're affiliated with or a member of.**
 - a. Currently, I am working for Sustainable Molokai striving for a more resilient and sustainable future for Molokai. I have personally worked on many future planning efforts including: Molokai Clean Energy Hui & Clean Energy Resilience Action Plan - which focuses on having 100% renewable energy for Molokai, Molokai CCSLAR - which focuses on climate change preparedness for the island, DHHL Coastal Homestead Resilience Plan- which focuses on our Hawaiian Homesteaders living in low line areas, flood zones, and along shorelines to help plan for the future of potential relocation, etc.
- 3. Please provide a brief summary of your skills, qualifications, expertise or knowledge.**
 - a. I have a great relationship with my community, I am able to communicate to them in a way that makes them feel comfortable and heard. I have worked hard on many community outreach plans, I have lived here on Molokai my entire life (the lifestyle, the people), I stand strong in what I believe in, but I am always willing to learn more. Community outreach: Communication, designing flyers, handout, creating a spreadsheet to organize all parts, setting up/leading meetings (big/small), workshops, focus groups, making those relationships within the community.
