RE: LONA Ridge LAND use Permit

Dear members of the Commission:

As a home owner in the Wailuku Heights neighborhood I would like to go on record STATING I vehemently oppose granting this permit at the LONA Ridge property.

IT IS NOT AN appropriate use for this neighborhood to buy a lot AND use it AS A pass thru entrance for an estate that IS AND has been pursuing A for profit business. IT WAS the owners responsibility to do due diligence on the viability OF the Agricultural pursuits of the property AND to claim its necessary to engage in for profit pursuits continue to afford her property is AN insult to the intelligence of all. This is

[NOT] about whether the owner is a nice person, a person who was born and raised here, a person who is trying to give back, this is not a personal decision this is a business decision this is a decision that affect the life style AND well being OF a neighbor hood. This type of zoning should have been pursued BEFORE NOT AFTER building the estate. There ARE many other options For MS Rochas to

B

Pursue in her quest for giving back to the community. And there are ~~many~~ other venues that are designed for the uses requested in the permit, such as Bailey house museum and Maui Tropical plantation. This is NOT AN Appropriate use for this neighborhood - please deny this request.
