

Long-Term Recovery Plan

Community Engagement Highlights

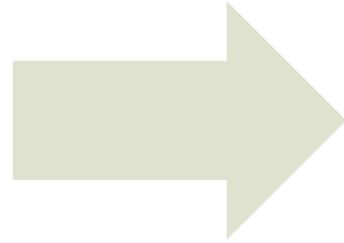

Ola Lahaina
SHAPING LAHAINA'S FUTURE

Community engagement has been a key component in the long-term recovery planning (LTRP) process for the County of Maui.

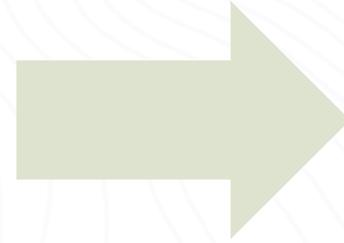

What is a Long-Term Recovery Plan?

Community Engagement: Neighborhood Workshops

Conversation Topics:

1. Cultural and Historic Resources *
2. Natural Resources and Resiliency *
3. Public Lands *
4. Community Services *
5. Housing
6. Community Design
7. Streets
8. Utilities
9. Public Safety
10. All Thoughts Matter

What should
stay the same?

What should
change?

Cultural and Historic Resources

Retain the plantation-style architecture and design

Restore Moku 'ula and Loko o Mokuhinia

Build a multicultural museum and community center

Restore historic properties

Wahikuli Neighborhood Workshop

Natural Resources and Resiliency

Restore historic waterways, return control of water to the people, remove private water ownership

Increase public education on shoreline hazards and sea level rise and options for relocation

Use native and drought resistant plants for landscaping and streetscaping

Manage non-native grasses and restore active agriculture

Lahaina Town North Neighborhood Workshop

Public Lands

Provide more community gathering places

Coordinate recreation and flood control in planning and design of public lands

Improve maintenance of parks and harbor

Plant native trees and plants on public lands

Wahikuli Neighborhood Workshop

Community Services

Rebuild and increase **kūpuna centers** offering adult day care, cultural programs, field trips and arts

Expand and rebuild the library

Construct a **West Side Hospital/Clinic**

Build a **community center** offering kūpuna activities, keiki and youth mentoring programs

Keiki Corner

Housing

Provide **affordable housing** for residents and local workers and implement **rent control**

Limit **oversized homes** and eliminate **short-term vacation rentals**

Expand and subsidize **kūpuna housing**

Reduce **permitting** and **rebuilding costs**, coordinate public and private financing for rebuilding

Lahaina Town South Neighborhood Workshop

Community Design

Maintain **unique architecture** and **small-town neighborhood feeling**

Lahaina should **feel like home** for **locals** and **welcome visitors**

Build **parking structures** on either side of town with **shuttle service**

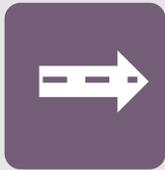

Build the **West Maui Greenway** and increase **walkability & bicycle lanes**, **green spaces**, connecting **downtown** to **residential areas**

Historic and Business Districts Workshop

Streets

Extend the Lahaina bypass beyond Keawe Street

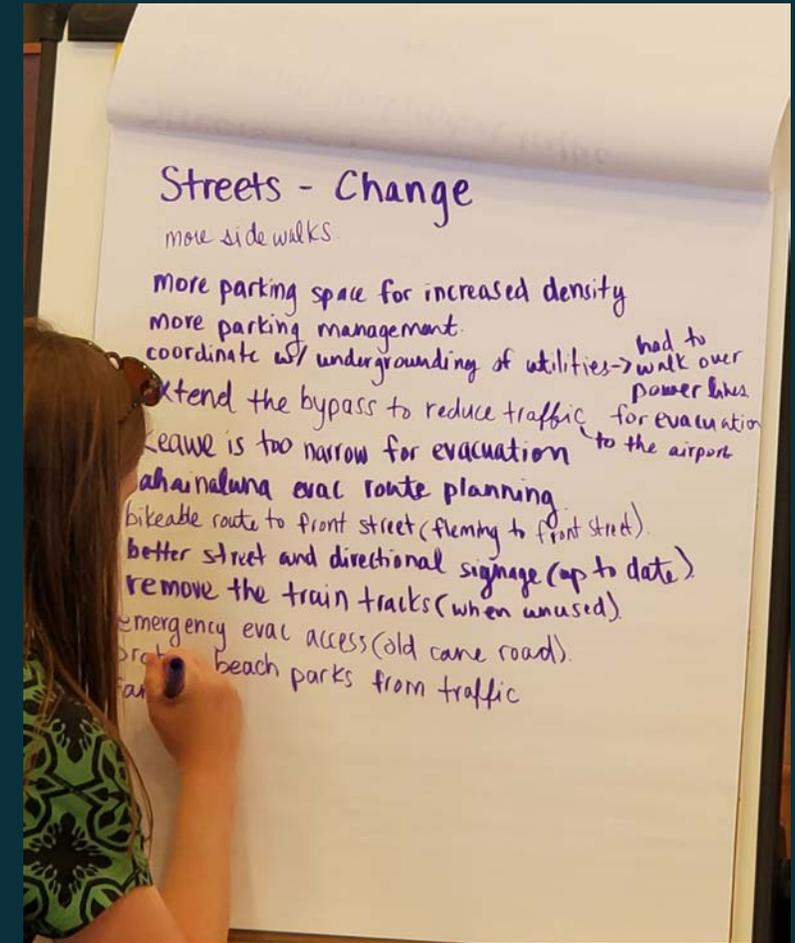

Increase number of evacuation routes and connect/extend streets – Dickenson & Kuhua

Better street lighting – especially Lahainaluna & Waine'e

Mauka to Makai – widen streets to add sidewalks, but maintain historic look & feel

Streets - Change

more side walks.

More parking space for increased density

more parking management.

coordinate w/ undergrounding of utilities → had to walk over power lines for evacuation to the airport

Extend the bypass to reduce traffic

Keawe is too narrow for evacuation

Lahainaluna evac route planning

bikeable route to front street (Fleming to front street)

better street and directional signage (up to date)

remove the train tracks (when unused)

emergency evac access (old cane road).

protect beach parks from traffic

Wahikuli Neighborhood Workshop

Utilities

Underground power lines

Develop **resilient infrastructure plan** to include utilities, shoreline, sewer and water infrastructure systems

Improve **cell phone tower service**

Use technologies such as solar as **alternative power source**

Historic and Business Districts Workshop

Public Safety

Improve fire mitigation and response

Make **communication systems** more resilient, increase backup systems

Construct additional **west side fire station** and increase number of trained emergency responders

Increase public drills, access to maps and **public awareness** on evacuation routes

Kelaweā Mauka Neighborhood Workshop

All Thoughts Matter

Prioritize local voices in the rebuilding Lahaina

Provide **tax benefits/incentives** to businesses that mentor youth and support community

Rebuild and improve Māla Wharf

Incentivize **regenerative tourism**

Kelaweā Mauka Neighborhood Workshop

What happens next?

**Public
Engagement
Report**

*August
2024*

**DRAFT
Long-Term
Recovery
Plan**

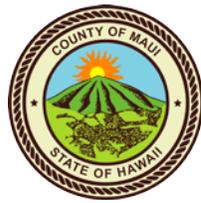

*Fall
2024*

Public Review

**FINAL
Long-Term
Recovery
Plan**

*December
2024*
