Subject: East Maui water lease

I think that the entire system needs inspection. The parts that need to be fixed fixed . The lease should not be granted with violations and allow them to persist.

I think they should be granted an interim lease until a call out to those that might be interested on the Island, get informed and can apply. My first choice is the right be granted to the County. There is revenue to be made above and beyond the loan repayment.

The lack of adequate water to Nahiku Taro farmers needs to be addressed.

I do not believe that a company outside of Maui, who must show economic gain to satisfy their investors is an appropriate company to grant a lease to. We have been colonized for too long to make the same mistake.
