RE: Support Makila Farms!

Aloha Chair Tasha Kama,

I am writing you this support letter in regards to Makila Farms Workforce Housing development project. I am supporting this project because I believe that Makila Farms is a great opportunity for hard working and local residents of Maui. It provides us the motivation we need in order to continue our life here. Maui is considered our home, it is a place we were born and raised but with all the difficulties such as low pay and high cost of living we tend to see ourselves moving in order to better support ourselves and our families. With the development of this project and all that it offers, I know that this will be an amazing start for not just myself but many other people as well.

I've also been following up on all of the updates that they have posted to their website. Each update address all of the questions and concerns about the project and gives a detailed report on what they will be doing and how each "problem" has been fixed. That to me just shows the incredible amount of dedication they've been putting into this project. It also shows just how much this project isn't just something they want to profit from but something that they want to better the community with. All in all those are the most important reasons I support this project and I hope that we will be given the same opportunity to live in such a beautiful area as ever else who currently resides there.

Mahalo Nui Loa
