Subject: Wailuku Civic Center

Aloha Mayor & Council Members

I believe it is prudent to take another look at the Wailuku Civic Center. Originally, it was all about increasing parking.

I read in The Maui News some time ago that additional parking in the new format is minimal and the cost per additional parking space was astronomical.

There is no doubt, that Maui County and Wailuku have many concerns and the budget to address these issues is limited. We have a new Administration and a new Council; let's let them take another look at the Wailuku Community Center before committing limited resources to something that while nice to have, may not in fact be a priority at this time. I believe a much higher priority's are homelessness & affordable housing.

Sincerely,
John Naylor
