Testimony in support of

EDB-52 – Maui Habitat for Humanity - \$5 Million for Hana Housing

Hana has always had a special place in my heart as I lived in the Hana from 1968 until I returned to Lanai to live in 1996. My two sons were raised in Hana and my son, Tony de Jetley, and his family continue to live there today.

Maui Habitat for Humanity's project will provide a way for Hana's younger generation to have a home of their own in the community. Housing has always been a problem in the community and this project will benefit so many of Hana families.

Maui Habitat for Humanity made it possible for a Lanai family in need to have a home of their own. Please help to make it possible for Hana residents to work together to build homes for themselves with the help of Maui Habitat for Humanity and the County of Maui.

Respectfully submitted,

Alberta de Jetley
