Subject: Need for an independent office for Climate Crisis

Dear Committee Members

I support the creation of a Department of Climate Change, Sustainability and Resiliency.

We can no longer be passive about the climate crisis that is ravaging the planet. Another person in the Mayor's office will not suffice. We need an office and staff comparable to the one on Oahu.

If you do not have the ability to establish such an office, then you should propose a charter amendment so that voters can choose come next November.

Aloha,

Mark Sheehan
