Aloha Chair and Council Members,

I need to express my opposition to the spending of monies that could be better allocated.

We have far greater priorities that could benefit from this money such as affordable housing, climate change adaptation, infrastructure improvements, and better disposal of our trash, just to name a few. These are the more pressing and urgent things that we should use this money on.

I've seen enough government projects such as the rail, go way over budget and the inconvenience it has caused such as traffic in already crowded areas. So this project of \$84 million IF-that's a really big IF, the project stays on track.

I ask you, vote down this project.

Mahalo,
Liko Wallace
