Subject: EDB-76

Aloha,

I am writing in support of the defunding of the Wailuku Civic Complex. 10, 20, 50, 100 years from now the question is what will we have done now to ensure the best possible future for our keiki tomorrow? With nearly 90 million dollars invested in this project, my question is what else can we do to better serve our community? Especially, those who are most vulnerable here and now.

If we care talking about this money reinvesting in our local community and economy, then why not look at a more comprehensive strategy that addressed - not merely the business community, but the entire community at large.

Again, I support the defunding of the Wailuku Civic Complex. Mahalo
