Dear Council,

I am writing to you in support of CC-176. We have all endured this pandemic for too long. The mass arrival of tourists has caused a shortage of beach parking that has been growing over the years. Most of us are lucky if we can go to the beach for a few hours once a week. I have not been able to go for over two months due to no available parking.

I have received my results from my annual physical and I have now have a lack of vitamin D. Mental health is also very important to our well being. I have become less tolerant of poor behavior that seems the norm as well. Please move forward on this bill. Mahalo, Chris Breckels, Lahaina.
