Subject: Front Street Apartments

Aloha,

My family and I found out in the newspaper that the land that Front Street Apartments is on is being sold and we could be pushed out. This news comes with great shock. We thought we had security when we moved in here. To make our lives better and give us the opportunity to work in the community and save money for a down payment on a house of our own. My husband and I have two small children and the affordable rent we have is the only way we can get by month to month and feed our children. We feel extremely grateful for this.

We need to keep this housing affordable. We are the workers that keep this community running.

Please help us keep Front Street Apartments affordable. Our ohana here needs this and would love the help of our council members to make this possible.

Mahalo,

Cambria, Norman, Rio, and Asia Russell
