**Subject:** SAVE KEAWAKAPU

Keawakapu beach is a home beach for a lot of our local community. There are so many other beaches along the stretch of this beach way that are all built up with hotels for tourism. Please consider leaving this a part of land for local Ohana to come and enjoy. One of the best parts of living and being on this side of the island is that it is not all about commercial buildings being everywhere and you can still have access to parks and parking. This would be a huge take away for the locals who live here.

Thank you for your consideration,  
Julie Williams
