Mr. David Goode  
Director  
Public Works Department  
County of Maui  
200 South High Street  
Wailuku, HI 96793

Aloha Mr. Goode,

We, the Hawai'i Public Health Institute (HIPHI), a 501(c)(3) nonprofit organization, in conjunction with the Healthy Eating +Active Living (HEAL) coalition, a program of HIPHI, would like to donate a portable Eco-Counter Mobile MULTI counting device (hereafter referred to as Mobile MULTI), valued at \$8000, to the County of Maui Public Works Department. Thank you so much for working with us in accepting the Mobile MULTI as a "gift" to the county to aid in collecting data on pedestrians and cyclists either independently, or together in separated or shared use facilities.

The Mobile MULTI counter is automated and can be used to track pedestrian and/or cyclist volumes at various locations year-round. This will bring quality data that is invaluable for the planning, design and evaluation of active transportation projects. This initiative can support more informed decisions about which projects and programs lead to more walking and cycling. Included with the system is a web-based platform that allows the tracking and analysis of the daily count, an in-person capacity-building training, and additional training and support available remotely.

We hope the County of Maui will accept this gift. Please feel free to contact myself or Lauren Loor, Maui County HEAL Community Coordinator.

Sincerely,
