Committee
Report No. 16-28

Honorable Chair and Members
of the County Council
County of Maui
Wailuku, Maui, Hawaii

Chair and Members:

Your Infrastructure and Environmental Management Committee, having met on January 25, 2016, makes reference to County Communication 15-303, from the Director of Public Works, transmitting a proposed resolution entitled "RESOLUTION GRANTING PERMISSION TO PLACE UTILITY POLES ALONG A PUBLIC HIGHWAY FOR THE KAHOMA VILLAGE PROJECT."

The purpose of the proposed resolution is to authorize the installation of ten utility poles by Stanford Carr Development, LLC for the Kahoma Village Project in Lahaina, Maui. The ten utility poles to be installed will replace eight existing poles, and will exceed the height of the existing poles by more than five feet.

Your Committee notes Council authorization is required, pursuant to Section 12.16.010, Maui County Code.

The Director of Public Works stated his Department supports the installation of the replacement poles.

Representatives of the Developer stated that eleven poles will be necessary to ensure the project conforms with current standards, and that the poles will be placed along Front Street, a County roadway.

Your Committee revised the proposed resolution to reference the eleven poles indicated on the map distributed by the Director at your Committee's meeting, rather than the ten indicated in the resolution.
