To: PIA Committee
Subject: In support of proposal PIA 10(11)

To whom it may concern,

The Mauimama fully supports a balanced representation on the Maui County Planning Commission, and believes it is essential to ensuring RESPONSIBLE development that will help preserve this island for our children and children's children.

I also believe it will help ensure a respect for this island we call home and respect to the host culture, two things I believe are important, which I try and teach my children and community through my magazine.

Therefore, I am speaking up to support item PIA 10(11).

Mahalo for your time,

Kate Griffiths
