**Subject:** Item EAR-67, Preservation at Pe'ahi  
**Attachments:** PROJECT\_Pe'ahiPark.pdf

Aloha,

I received the county council "fall update" for Makawao, Ha'iku, and Pa'ia, and was stoked to see that the 267.7 acres were acquired for preservation near Pe'ahi. This is such a blessing! I wanted to lend my expertise and opinions of how to use the space, so that the whole community may benefit. I attached a document with a simple concept of how to use the land for community integrated agriculture + recreation and over time I can see this area growing and becoming such a beacon in the Ha'iku community. If allowed to grow to its full potential, this area could connect with nearby schools, church groups, farmer's associations, and others to provide educational opportunities, community service, and events such as farmer's markets. Mahalo nui to the Council's Economic Development, Energy, Agriculture and Recreation Committee for all the work being put into this and ongoing projects.

Aloha,  
Michael
