Subject: Please please enforce limits!

Aloha

Please support both lu-40 & lu-7. I live in Makawao & drive to Ka'anapali every day to work because I have been unable to find affordable housing in west Maui for over 4 years. I am constantly looking & there is nothing affordable because of the horrendous illegal vacation situation.

My dear friends, the Bradleys, recently secured a home for their family in haiku & when they went to sign the lease (one week before move in), were told, "we've changed our mind because we can make much more money vacation renting it to tourists" they have temporary housing & are desperately trying to find a home for themselves & their children. I could quite simply go on & on w the stories. Please help us working families on Maui & put a stop to this madness.

I'm all for legal vacation rentals if someone has jumped through the hoops, pay taxes, etc. but no more new permits for quite awhile until things can even out for people who need homes.

Thank you so much!

Sincerely

Elizabeth Levings
