Dear Sir/Madam,

I am astonished that there are plans to introduce a bill to prevent the TNR method of controlling the cat population. It seems that the idea is to starve the cats to death. I understand that this starvation method has been tried elsewhere with no success whatsoever so I fail to see the logic of attempting such a thing.

I also find it very dishonest of you to introduce this bill during the Coronavirus lockdown, presumably with the intent of avoiding public scrutiny.

Pretty shameful, all in all.

Regards

Gary Kingsbury
