Subject: Testimony for Wailuku Civic Hub

Please, take a step back and reconsider this wailuku parking garage project. At a time when so many are trying to work together to keep our county thriving locally, it seems like we need to use these funds to support preservation projects and ways to support the local businesses instead of building something so uncharacteristic of Wailuku. I do not support this project and hope the county will reconsider. Thanks for your time in reading this and making sure it is used as testimony.

Aloha,
Claudia Rosenbaum
