Chair and Members:

2. A Certification of Additional Revenues for FY 2024, dated January 19, 2024, for \$510,500 in Carryover/Savings from the General Fund.

By correspondence dated January 19, 2024, the Budget Director informed your Committee that project funds were included in the FY 2023 Budget, but after receipt and review of the bids, additional funding was needed to construct the interim lot.

Your Committee notes that the project description in the FY 2023 Budget includes the installation of a temporary parking lot to be used during construction of the permanent lot.

A representative from the Budget Office said the \$510,500 in Carryover/Savings from the General Fund will be used to cover fees for the relocation of overhead power poles, the interim lot modular installation, and estimated overhead increases.

The Chief of Planning and Development from the Department of Parks and Recreation explained the project bid included the interim lot, but not the installation of surfacing material. He noted that the material for the interim lot at Wells Park will be used for Pā'ia. The requested funds will cover the separate scope of work, including the purchase of additional surfacing material.

The Parks and Recreation representative confirmed that variations in bid results do occur and assured your Committee that all bids were based on the same scope of work. However, the Department confirmed with the lowest bidder that their bid included all project components.

Your Committee expressed support for Bill 19 and agreed that fixing the parking lot is necessary to allow the community access to the Pā'ia Youth and Cultural Center.
