The ongoing us occupation in the Hawaiian kingdom has enacted violence on kānaka maoli

the fake state claims to care for kānaka maoli yet the vast hellscape of military occupation & vacation rentals have displaced 60% of kānaka maoli

This environmental injustice has largely impacted native Hawaiians (kānaka maoli) with inter generational poverty, trauma & lost identity which has caused irreparable damage & environmental injustice to our communities in the form of poverty, displacement, alcoholism & drugs with underdeveloped medical infrastructure by design

These vacant vacation rentals are often infested with bug life bc they are just sitting empty while my people are treated as sub humans to cater & serve the tourist industry Kānaka deserve to live in those homes, the state abuses us making us beg & cry for basic human rights

But then Americans & Japanese got all the real estate, government jobs & economic success on our aina while they put Hawaiians in tents

Stop claiming to care for us when our communities are being impacted the most in the worst way and this is by your design.

Make it pono
