To whom it may concern

This is a copy of the letter I sent to the Councilman whom has decided without even considering the outcome of how great a disaster it would be to kill these poor innocent creatures of Maui. They have been spayed and neutered and are not breeding. Once a new colony moves in after all of the present ferals suffer and die excruciating deaths, the new colony will breed and breed and breed since they are riot spayed and neutered....This is what is known as the vacuum effect!!! This particular Councilman is either ignorant to the facts or just an evil person. Which is it? There can be no other reason for this. Word travels quickly in Maui; this I know for sure. Please folks instead of killing these cats, why not turn Maui into a nice sanctuary for them; get spay and neuter clinics set up and turn Maui into a tourist attraction, like Disneyland and several movie studios and more have done?

Joy SEE LETTER BELOW I WROTE TO THIS COUNCILMAN.....

I am just wondering if the reason you gave the public so little time to respond to your proposal of making it a crime to feed God's poor innocent, starving ferals of Maui, is because you despise all cats and want them all dead. I know you must be smart enough, being a city counselor, to KNOW that they will die excruciating deaths, more so than ever; the reasons being: in their desperate hunt for food and scraps they will be hit by cars and lie suffering on the streets, they will fight each other to the death over a scrap of a decomposed animal carcass, they will get into poisonous substances or decayed left overs, and even without their quest for food they will die slow, agonizing deaths from starvation.

With all this is said and done, if colonies were wiped out, which is what you propose, more and more ferals will move in and form brand new colonies which is known as the vacuum effect. You cannot eradicate this situation by allowing the ferals you now know about to be starved to death. Also the colony cats have been spayed and neutered unlike the new ones moving in once these ferals have all died out because this is your wish. New ones will rapidly reproduce and this situation will worsen 100 fold.

A better solution is to give the volunteers the help they need by providing more volunteers to step in , in order to get the current situation better and quicker under control.

It is difficult for me to believe Mr. Councilman that you could be such a cruel hearted and evil spirited human being to allow such devastation to occur in such a beautiful, animal loving community as MAUI. Please look at the big picture.

Please let go of any pride you may have and change your mind. I am positive that this community will think of you as a good and compassionate human being than as a cat killer. And God may save you one of his mansions in Heaven .

You do realize word travels quickly and even quicker with so many homebound folks sitting by their computers now.

I and your community are praying you will reconsider and do the humane thing
