Dear Maui County Clerk Maui County Council,

I support the County seeking to settle the Lahaina Injection Well case (HAWAII WILDLIFE FUND, ET AL. V. COUNTY OF MAUI, RELATING TO THE CLEAN WATER ACT) as per CC 19-225,

The County of Maui should not be spending money attempting to gut the Clean Water Act. Instead, the money should be spent ensuring no pollutants reach the ocean from our wastewater facilities.

Sincerely,  
Donovan Fayd  
201 Kaulani Dr # 96768 Makawao, HI 96768-8620 donovanfayd@gmail.com

**To:** GET Committee  
**Subject:** RE: 9/3/19 GET meeting; GET-26: It's time to make the pono choice and withdraw the attack against th

Dear Maui County GET Committee,

Hi, my name is Midge Miller and I live in Lahaina, Hawaii. I am submitting this testimony for the September 3, 2019 committee meeting on item GET-26 (settlement in Hawai'i Wildlife Fund, et al., v. County of Maui).

As a resident of Hawai'i, I urge you to withdraw the appeal to the Supreme Court, focus on solutions for wastewater pollution, and stop the damage to priceless ocean and reef resources. The county should invest in Maui's future by building the necessary infrastructure to reuse the Lahaina facility's treated wastewater for irrigation, which is a true "win-win" solution. In contrast, destroying the law to advance the county's "right to pollute" the ocean is a "lose-lose" for both the county and the people.

We need Maui County's elected representatives to show leadership and turn this situation around. It's time to stop the reckless attack on the law and focus on building a responsible wastewater system of the future at the Lahaina facility.

We don't want Maui to do the dirty work with the Trump administration for our nation's worst polluters by dismantling the nation's bedrock clean water law.

We need your help before Maui County goes down in history as the champion for water pollution in the United States. Please, create a lasting, positive legacy by focusing on the solutions for this pollution problem and upholding—not destroying—the legal protections of clean water for Maui, Hawai'i, and the entire nation.

Regards,  
Midge Miller

Hi, my name is Carolynn Griffith and I live in Honolulu, Hawaii. I am submitting this testimony for the September 3, 2019 committee meeting on item GET-26 (settlement in Hawai'i Wildlife Fund, et al., v. County of Maui).

No wastewater in our Pacific ocean!

As a resident of Hawai'i, I urge you to withdraw the appeal to the Supreme Court, focus on solutions for wastewater pollution, and stop the damage to priceless ocean and reef resources. The county should invest in Maui's future by building the necessary infrastructure to reuse the Lahaina facility's treated wastewater for irrigation, which is a true "win-win" solution. In contrast, destroying the law to advance the county's "right to pollute" the ocean is a "lose-lose" for both the county and the people.

We need Maui County's elected representatives to show leadership and turn this situation around. It's time to stop the reckless attack on the law and focus on building a responsible wastewater system of the future at the Lahaina facility.

We don't want Maui to do the dirty work with the Trump administration for our nation's worst polluters by dismantling the nation's bedrock clean water law.

We need your help before Maui County goes down in history as the champion for water pollution in the United States. Please, create a lasting, positive legacy by focusing on the solutions for this pollution problem and upholding—not destroying—the legal protections of clean water for Maui, Hawai'i, and the entire nation.

Aloha, my name is Midi Cox and I live in Honolulu, Hawaii. I am submitting this testimony for the September 3, 2019 committee meeting on item GET-26 (settlement in Hawai'i Wildlife Fund, et al., v. County of Maui).

From my grandfather on, members of my family have used their professional expertise to fight for clean water in Hawaii. I hope that will not have been in vain.

Mahalo.

As a resident of Hawai'i, I urge you to withdraw the appeal to the Supreme Court, focus on solutions for wastewater pollution, and stop the damage to priceless ocean and reef resources. The county should invest in Maui's future by building the necessary infrastructure to reuse the Lahaina facility's treated wastewater for irrigation, which is a true "win-win" solution. In contrast, destroying the law to advance the county's "right to pollute" the ocean is a "lose-lose" for both the county and the people.

We need Maui County's elected representatives to show leadership and turn this situation around. It's time to stop the reckless attack on the law and focus on building a responsible wastewater system of the future at the Lahaina facility.

We don't want Maui to do the dirty work with the Trump administration for our nation's worst polluters by dismantling the nation's bedrock clean water law.

We need your help before Maui County goes down in history as the champion for water pollution in the United States. Please, create a lasting, positive legacy by focusing on the solutions for this pollution problem and upholding—not destroying—the legal protections of clean water for Maui, Hawai'i, and the entire nation.

Dear Councilmember Mike Molina,

Hi, my name is mike lee and I live in Honolulu, Hawaii. I am submitting this testimony for the September 3, 2019 committee meeting on item GET-26 (settlement in Hawai'i Wildlife Fund, et al., v. County of Maui).

As a resident of Hawai'i, I urge you to withdraw the appeal to the Supreme Court, focus on solutions for wastewater pollution, and stop the damage to priceless ocean and reef resources. The county should invest in Maui's future by building the necessary infrastructure to reuse the Lahaina facility's treated wastewater for irrigation, which is a true "win-win" solution. In contrast, destroying the law to advance the county's "right to pollute" the ocean is a "lose-lose" for both the county and the people.

We need Maui County's elected representatives to show leadership and turn this situation around. It's time to stop the reckless attack on the law and focus on building a responsible wastewater system of the future at the Lahaina facility.

We don't want Maui to do the dirty work with the Trump administration for our nation's worst polluters by dismantling the nation's bedrock clean water law.

We need your help before Maui County goes down in history as the champion for water pollution in the United States. Please, create a lasting, positive legacy by focusing on the solutions for this pollution problem and upholding—not destroying—the legal protections of clean water for Maui, Hawai'i, and the entire nation.

Regards,  
mike lee

Dear Councilmember Mike Molina,

Hi, my name is Naomi Pang and I live in Mililani, Oahu. I am submitting this testimony for the September 3, 2019 committee meeting on item GET-26 (settlement in Hawai'i Wildlife Fund, et al., v. County of Maui).

Do what is right, pono!!!

As a resident of Hawai'i, I urge you to withdraw the appeal to the Supreme Court, focus on solutions for wastewater pollution, and stop the damage to priceless ocean and reef resources. The county should invest in Maui's future by building the necessary infrastructure to reuse the Lahaina facility's treated wastewater for irrigation, which is a true "win-win" solution. In contrast, destroying the law to advance the county's "right to pollute" the ocean is a "lose-lose" for both the county and the people.

We need Maui County's elected representatives to show leadership and turn this situation around. It's time to stop the reckless attack on the law and focus on building a responsible wastewater system of the future at the Lahaina facility.

We don't want Maui to do the dirty work with the Trump administration for our nation's worst polluters by dismantling the nation's bedrock clean water law.

We need your help before Maui County goes down in history as the champion for water pollution in the United States. Please, create a lasting, positive legacy by focusing on the solutions for this pollution problem and upholding—not destroying—the legal protections of clean water for Maui, Hawai'i, and the entire nation.

Regards,  
Naomi Pang  
94-571 Holaniku St.  
Mililani, HI 96789

Dear Councilmember Mike Molina,

Hi, my name is Shari Grounds and I live in Kailua, Hawaii. I am submitting this testimony for the September 3, 2019 committee meeting on item GET-26 (settlement in Hawai'i Wildlife Fund, et al., v. County of Maui).

As a resident of Hawai'i, I urge you to withdraw the appeal to the Supreme Court, focus on solutions for wastewater pollution, and stop the damage to priceless ocean and reef resources. The county should invest in Maui's future by building the necessary infrastructure to reuse the Lahaina facility's treated wastewater for irrigation, which is a true "win-win" solution. In contrast, destroying the law to advance the county's "right to pollute" the ocean is a "lose-lose" for both the county and the people.

We need Maui County's elected representatives to show leadership and turn this situation around. It's time to stop the reckless attack on the law and focus on building a responsible wastewater system of the future at the Lahaina facility.

We don't want Maui to do the dirty work with the Trump administration for our nation's worst polluters by dismantling the nation's bedrock clean water law.

We need your help before Maui County goes down in history as the champion for water pollution in the United States. Please, create a lasting, positive legacy by focusing on the solutions for this pollution problem and upholding—not destroying—the legal protections of clean water for Maui, Hawai'i, and the entire nation.

Regards,  
Shari Grounds

As a resident of Hawai'i, I urge you to withdraw the appeal to the Supreme Court, focus on solutions for wastewater pollution, and stop the damage to priceless ocean and reef resources. The county should invest in Maui's future by building the necessary infrastructure to reuse the Lahaina facility's treated wastewater for irrigation, which is a true "win-win" solution. In contrast, destroying the law to advance the county's "right to pollute" the ocean is a "lose-lose" for both the county and the people.

We need Maui County's elected representatives to show leadership and turn this situation around. It's time to stop the reckless attack on the law and focus on building a responsible wastewater system of the future at the Lahaina facility.

We don't want Maui to do the dirty work with the Trump administration for our nation's worst polluters by dismantling the nation's bedrock clean water law.

We need your help before Maui County goes down in history as the champion for water pollution in the United States. Please, create a lasting, positive legacy by focusing on the solutions for this pollution problem and upholding—not destroying—the legal protections of clean water for Maui, Hawai'i, and the entire nation.

Dear Councilmember Mike Molina,

Hi, my name is Pam Elders and I live in Laupahoehoe, Hawaii. I am submitting this testimony for the September 3, 2019 committee meeting on item GET-26 (settlement in Hawai'i Wildlife Fund, et al., v. County of Maui).

I ask you to do the right thing for the islands--do everything you can to NOT pollute! Be a responsible steward of our beautiful islands!

As a resident of Hawai'i, I urge you to withdraw the appeal to the Supreme Court, focus on solutions for wastewater pollution, and stop the damage to priceless ocean and reef resources. The county should invest in Maui's future by building the necessary infrastructure to reuse the Lahaina facility's treated wastewater for irrigation, which is a true "win-win" solution. In contrast, destroying the law to advance the county's "right to pollute" the ocean is a "lose-lose" for both the county and the people.

We need Maui County's elected representatives to show leadership and turn this situation around. It's time to stop the reckless attack on the law and focus on building a responsible wastewater system of the future at the Lahaina facility.

We don't want Maui to do the dirty work with the Trump administration for our nation's worst polluters by dismantling the nation's bedrock clean water law.

We need your help before Maui County goes down in history as the champion for water pollution in the United States. Please, create a lasting, positive legacy by focusing on the solutions for this pollution problem and upholding—not destroying—the legal protections of clean water for Maui, Hawai'i, and the entire nation.

Regards,  
Pam Elders

Dear Maui County GET Committee,

Hi, my name is David Melniko and I live in Keaau, Hawaii. I am submitting this testimony for the September 3, 2019 committee meeting on item GET-26 (settlement in Hawai'i Wildlife Fund, et al., v. County of Maui).

I was disturbed to find out that Maui county wants to pollute our water. What's up with that? Do the right for the environment and our health. Withdraw the lawsuit immediately and clean up your actions!

As a resident of Hawai'i, I urge you to withdraw the appeal to the Supreme Court, focus on solutions for wastewater pollution, and stop the damage to priceless ocean and reef resources. The county should invest in Maui's future by building the necessary infrastructure to reuse the Lahaina facility's treated wastewater for irrigation, which is a true "win-win" solution. In contrast, destroying the law to advance the county's "right to pollute" the ocean is a "lose-lose" for both the county and the people.

We need Maui County's elected representatives to show leadership and turn this situation around. It's time to stop the reckless attack on the law and focus on building a responsible wastewater system of the future at the Lahaina facility.

We don't want Maui to do the dirty work with the Trump administration for our nation's worst polluters by dismantling the nation's bedrock clean water law.

We need your help before Maui County goes down in history as the champion for water pollution in the United States. Please, create a lasting, positive legacy by focusing on the solutions for this pollution problem and upholding—not destroying—the legal protections of clean water for Maui, Hawai'i, and the entire nation.

Regards,  
David Melniko

Protect our reefs from Maui sewage pollution! Drop your appeal to the Supreme Court.

As a resident of Hawai'i, I urge you to withdraw the appeal to the Supreme Court, focus on solutions for wastewater pollution, and stop the damage to priceless ocean and reef resources. The county should invest in Maui's future by building the necessary infrastructure to reuse the Lahaina facility's treated wastewater for irrigation, which is a true "win-win" solution. In contrast, destroying the law to advance the county's "right to pollute" the ocean is a "lose-lose" for both the county and the people.

We need Maui County's elected representatives to show leadership and turn this situation around. It's time to stop the reckless attack on the law and focus on building a responsible wastewater system of the future at the Lahaina facility.

We don't want Maui to do the dirty work with the Trump administration for our nation's worst polluters by dismantling the nation's bedrock clean water law.

We need your help before Maui County goes down in history as the champion for water pollution in the United States. Please, create a lasting, positive legacy by focusing on the solutions for this pollution problem and upholding—not destroying—the legal protections of clean water for Maui, Hawai'i, and the entire nation.

Dear Maui County GET Committee,

Hi, my name is Anne Fojtasek and I live in Kapaau, Hawaii. I am submitting this testimony for the September 3, 2019 committee meeting on item GET-26 (settlement in Hawai'i Wildlife Fund, et al., v. County of Maui).

As a resident of Hawai'i, I urge you to withdraw the appeal to the Supreme Court, focus on solutions for wastewater pollution, and stop the damage to priceless ocean and reef resources. The county should invest in Maui's future by building the necessary infrastructure to reuse the Lahaina facility's treated wastewater for irrigation, which is a true "win-win" solution. In contrast, destroying the law to advance the county's "right to pollute" the ocean is a "lose-lose" for both the county and the people.

We need Maui County's elected representatives to show leadership and turn this situation around. It's time to stop the reckless attack on the law and focus on building a responsible wastewater system of the future at the Lahaina facility.

We don't want Maui to do the dirty work with the Trump administration for our nation's worst polluters by dismantling the nation's bedrock clean water law.

We need your help before Maui County goes down in history as the champion for water pollution in the United States. Please, create a lasting, positive legacy by focusing on the solutions for this pollution problem and upholding—not destroying—the legal protections of clean water for Maui, Hawai'i, and the entire nation.

Regards,

**To:** GET Committee  
**Cc:** marti.townsend@sierraclub.org  
**Subject:** Testimony in favor of passing resolution CC-19-178

Aloha:

I am writing to ask you to vote to pass Resolution CC-19-178, which would withdraw Maui County's appeal to the Supreme Court. Maui County should settle instead. We need Maui County to withdraw its appeal from the U.S. Supreme Court and focus on cleaning up Lahaina's wastewater treatment process.

Why? My mom was born in Paia, Maui, in 1935. She was the daughter of Dr. CM Burgess, who practiced medicine in Makawao, Maui. He became a general surgeon and worked for his career at Straub Clinic, Honolulu. Why is this important? Dr Burgess was also a shell collector and wrote the book, The Living Cowries. He spent every free vacation day, shelling and exploring Hawaii's reefs. He was an early conservationist, and wrote about protecting the reefs. Our daughter, Emma, has worked at Bishop Museum in Malacology, and for the University of Hawaii at Coconut Island, doing research on sustaining the coral reefs.

Our family is very concerned with protecting Hawaiian reefs from future harm. By settling this lawsuit, Maui can effectively help the future of our ocean. Citizens of Maui County and of all the Hawaiian Islands should come together to stop polluting our ocean with untreated sewage. This is unacceptable.

As a member of the Sierra Club of Oahu, I applaud Marti Townsend for her efforts to protect Hawaii's waters and oceans from harm.

Mahalo,

Anne McCrea Orndahl

The county should invest in Maui's future by building the necessary infrastructure to reuse the Lahaina facility's treated wastewater for irrigation, which is a true "win-win" solution. In contrast, destroying the law to advance the county's "right to pollute" the ocean is a "lose-lose" for both the county and the people.

We need Maui County's elected representatives to show leadership and turn this situation around. It's time to stop the reckless attack on the law and focus on building a responsible wastewater system of the future at the Lahaina facility.

We don't want Maui to do the dirty work with the Trump administration for our nation's worst polluters by dismantling the nation's bedrock clean water law.

We need your help before Maui County goes down in history as the champion for water pollution in the United States. Please, create a lasting, positive legacy by focusing on the solutions for this pollution problem and upholding—not destroying—the legal protections of clean water for Maui, Hawai'i, and the entire nation.

Dear Councilmember Mike Molina,

Hi, my name is Jono Knight and I live in Kahului, Hawaii. I am submitting this testimony for the September 3, 2019 committee meeting on item GET-26 (settlement in Hawai'i Wildlife Fund, et al., v. County of Maui).

It's our duty to leave a clean & livable world to our children and future generations. We can do better...

Stop polluting and do what is pono!

As a resident of Hawai'i, I urge you to withdraw the appeal to the Supreme Court, focus on solutions for wastewater pollution, and stop the damage to priceless ocean and reef resources. The county should invest in Maui's future by building the necessary infrastructure to reuse the Lahaina facility's treated wastewater for irrigation, which is a true "win-win" solution. In contrast, destroying the law to advance the county's "right to pollute" the ocean is a "lose-lose" for both the county and the people.

We need Maui County's elected representatives to show leadership and turn this situation around. It's time to stop the reckless attack on the law and focus on building a responsible wastewater system of the future at the Lahaina facility.

We don't want Maui to do the dirty work with the Trump administration for our nation's worst polluters by dismantling the nation's bedrock clean water law.

We need your help before Maui County goes down in history as the champion for water pollution in the United States. Please, create a lasting, positive legacy by focusing on the solutions for this pollution problem and upholding—not destroying—the legal protections of clean water for Maui, Hawai'i, and the entire nation.

Dear Councilmember Mike Molina,

Hi, my name is Ann Horwath and I live in Ewa Beach, Hawaii. I am submitting this testimony for the September 3, 2019 committee meeting on item GET-26 (settlement in Hawai'i Wildlife Fund, et al., v. County of Maui).

As a resident of Hawai'i, I urge you to withdraw the appeal to the Supreme Court, focus on solutions for wastewater pollution, and stop the damage to priceless ocean and reef resources. The county should invest in Maui's future by building the necessary infrastructure to reuse the Lahaina facility's treated wastewater for irrigation, which is a true "win-win" solution. In contrast, destroying the law to advance the county's "right to pollute" the ocean is a "lose-lose" for both the county and the people.

We need Maui County's elected representatives to show leadership and turn this situation around. It's time to stop the reckless attack on the law and focus on building a responsible wastewater system of the future at the Lahaina facility.

We don't want Maui to do the dirty work with the Trump administration for our nation's worst polluters by dismantling the nation's bedrock clean water law.

We need your help before Maui County goes down in history as the champion for water pollution in the United States. Please, create a lasting, positive legacy by focusing on the solutions for this pollution problem and upholding—not destroying—the legal protections of clean water for Maui, Hawai'i, and the entire nation.

Regards,  
Ann Horwath  
91-1036 Kahiuka St  
Ewa Beach, HI 96706

Dear Councilmember Mike Molina,

Hi, my name is Janice palma-Glennie and I live in Kailua-kona, Hawaii. I am submitting this testimony for the September 3, 2019 committee meeting on item GET-26 (settlement in Hawai'i Wildlife Fund, et al., v. County of Maui).

aloha, I was a resident of Maui for 5 years before moving to the Big Island of Hawai'i. When I left there 35 years ago, the island was already experiencing unsustainable growth My heart is still with the land and the people of that beautiful but fragile island. Please use your integrity and wisdom to protect Maui's critical watershed and nearshore waters.

As a resident of Hawai'i, I urge you to withdraw the appeal to the Supreme Court, focus on solutions for wastewater pollution, and stop the damage to priceless ocean and reef resources. The county should invest in Maui's future by building the necessary infrastructure to reuse the Lahaina facility's treated wastewater for irrigation, which is a true "win-win" solution. Dear Councilmember Mike Molina,

Hi, my name is Eva Daniells and I live in Makawao, Hawaii. I am submitting this testimony for the September 3, 2019 committee meeting on item GET-26 (settlement in Hawai'i Wildlife Fund, et al., v. County of Maui).

I have been a resident of Maui for over 40 years and have seen extensive deterioration of our precious coral reefs and much fewer reef fish. The health of our ocean ecosystem is vital for the health of our island and for the health of our economy as well as much of Maui's economy is based on tourism.

As a resident of Hawai'i, I urge you to withdraw the appeal to the Supreme Court, focus on solutions for wastewater pollution, and stop the damage to priceless ocean and reef resources. The county should invest in Maui's future by building the necessary infrastructure to reuse the Lahaina facility's treated wastewater for irrigation, which is a true "win-win" solution. Dear Councilmember Mike Molina,

Hi, my name is Tehani White and I live in Mililani, Hawaii. I am submitting this testimony for the September 3, 2019 committee meeting on item GET-26 (settlement in Hawai'i Wildlife Fund, et al., v. County of Maui).

Not sure why polluting an area that is a tourist destination (aka the cash cow of Hawaii) is even being supported, but please stop. These short-term solutions need to STOP. PERIOD. It never translates into long-term benefits. NEVER. I really don't know how you all as public servants don't see that??? Am I missing something here? Or are you guys just that greedy that you can't see past your nose????

As a resident of Hawai'i, I urge you to withdraw the appeal to the Supreme Court, focus on solutions for wastewater pollution, and stop the damage to priceless ocean and reef resources. As a resident of Hawai'i, I urge you to withdraw the appeal to the Supreme Court, focus on solutions for wastewater pollution, and stop the damage to priceless ocean and reef resources. The county should invest in Maui's future by building the necessary infrastructure to reuse the Lahaina facility's treated wastewater for irrigation, which is a true "win-win" solution. In contrast, destroying the law to advance the county's "right to pollute" the ocean is a "lose-lose" for both the county and the people.

We need Maui County's elected representatives to show leadership and turn this situation around. It's time to stop the reckless attack on the law and focus on building a responsible wastewater system of the future at the Lahaina facility.

We don't want Maui to do the dirty work with the Trump administration for our nation's worst polluters by dismantling the nation's bedrock clean water law.

We need your help before Maui County goes down in history as the champion for water pollution in the United States. Please, create a lasting, positive legacy by focusing on the solutions for this pollution problem and upholding—not destroying—the legal protections of clean water for Maui, Hawai'i, and the entire nation.

Dear Councilmember Mike Molina,

Hi, my name is Jack Reiland and I live in Aiea, Hawaii. I am submitting this testimony for the September 3, 2019 committee meeting on item GET-26 (settlement in Hawai'i Wildlife Fund, et al., v. County of Maui).

It's unbelievable that in our "paradise" you are choosing to defend your polluting of our oceans instead of preserving them. Shame.

As a resident of Hawai'i, I urge you to withdraw the appeal to the Supreme Court, focus on solutions for wastewater pollution, and stop the damage to priceless ocean and reef resources. The county should invest in Maui's future by building the necessary infrastructure to reuse the Lahaina facility's treated wastewater for irrigation, which is a true "win-win" solution. In contrast, destroying the law to advance the county's "right to pollute" the ocean is a "lose-lose" for both the county and the people.

Dear Councilmember Mike Molina,

Hi, my name is Melinda Ahn and I live in Kaneohe, Hawaii. I am submitting this testimony for the September 3, 2019 committee meeting on item GET-26 (settlement in Hawai'i Wildlife Fund, et al., v. County of Maui).

Please help protect my family from all the cancer causing chemicals that are used on our food supply!

As a resident of Hawai'i, I urge you to withdraw the appeal to the Supreme Court, focus on solutions for wastewater pollution, and stop the damage to priceless ocean and reef resources. The county should invest in Maui's future by building the necessary infrastructure to reuse the Lahaina facility's treated wastewater for irrigation, which is a true "win-win" solution. In contrast, destroying the law to advance the county's "right to pollute" the ocean is a "lose-lose" for both the county and the people.

We need Maui County's elected representatives to show leadership and turn this situation around. It's time to stop the reckless attack on the law and focus on building a responsible wastewater system of the future at the Lahaina facility.

We don't want Maui to do the dirty work with the Trump administration for our nation's worst polluters by dismantling the nation's bedrock clean water law.

We need your help before Maui County goes down in history as the champion for water pollution in the United States. Please, create a lasting, positive legacy by focusing on the solutions for this pollution problem and upholding—not destroying—the legal protections of clean water for Maui, Hawai'i, and the entire nation.

Regards,  
Melinda Ahn

Dear Maui County GET Committee,

Hi, my name is Tom Gourley and I live in Lahaina, Hawaii. I am submitting this testimony for the September 3, 2019 committee meeting on item GET-26 (settlement in Hawai'i Wildlife Fund, et al., v. County of Maui).

I have friends who have time shares on Kahekili Beach. They don't want to come visit due to the pollution the Lahaina injection well is causing. Please settle the suit and find other ways to use the treated water. There are many possibilities which would be useful for agriculture.

As a resident of Hawai'i, I urge you to withdraw the appeal to the Supreme Court, focus on solutions for wastewater pollution, and stop the damage to priceless ocean and reef resources. The county should invest in Maui's future by building the necessary infrastructure to reuse the Lahaina facility's treated wastewater for irrigation, which is a true "win-win" solution. Subject: You must settle the Lahaina Injections Wells case

Dear Maui County Clerk Maui County Council,

The County of Maui should not be spending money attempting to gut the Clean Water Act. Instead, the money should be spent ensuring no pollutants reach the ocean from our wastewater facilities.

It is truly a waste of taxpayer money to be dragging this case through the court system, especially when Mayor Victorino has said he intends to change the way the Lahaina wastewater treatment plant operates. The money should be spent on that instead. Considering this case has lost every single appeal, this has reached a level of absurdity unprecedented on Maui.

For what it is worth, I am a sustainability scientist. I am trained to look at systems and the bigger picture. The implications this case could have on the nation are staggering, and anyone telling you otherwise has little experience with environmental law.

I once heard a wastewater treatment staff person on Maui call Lahaina "the bastard stepchild of wastewater treatment plants on Maui". Why not spend the money necessary to upgrade the plant and be done with this? Those steps should have been taken YEARS ago. I am truly disgusted by the gross incompetence our former Mayor showed in this matter, and I sincerely hope you do not choose to follow suit.

I support the County seeking to settle the Lahaina Injection Well case (HAWAII WILDLIFE FUND, ET AL. V. COUNTY OF MAUI, RELATING TO THE CLEAN WATER ACT) as per CC 19-225,

Sincerely,  
Amy Campbell

Dear Councilmember Mike Molina,

Hi, my name is J Rosa and I live in Honolulu, Hawaii in Manoa Valley. I am submitting this testimony for the September 3, 2019 committee meeting on item GET-26 (settlement in Hawai'i Wildlife Fund, et al., v. County of Maui).

As a resident of Hawai'i, I urge you to withdraw the appeal to the Supreme Court, focus on solutions for wastewater pollution, and stop the damage to priceless ocean and reef resources. The county should invest in Maui's future by building the necessary infrastructure to reuse the Lahaina facility's treated wastewater for irrigation, which is a true "win-win" solution. In contrast, destroying the law to advance the county's "right to pollute" the ocean is a "lose-lose" for both the county and the people.

We need Maui County's elected representatives to show leadership and turn this situation around. It's time to stop the reckless attack on the law and focus on building a responsible wastewater system of the future at the Lahaina facility.

We don't want Maui to do the dirty work with the Trump administration for our nation's worst polluters by dismantling the nation's bedrock clean water law.

We need your help before Maui County goes down in history as the champion for water pollution in the United States. Please, create a lasting, positive legacy by focusing on the solutions for this pollution problem and upholding—not destroying—the legal protections of clean water for Maui, Hawai'i, and the entire nation.

Regards,  
J Rosa

The county should invest in Maui's future by building the necessary infrastructure to reuse the Lahaina facility's treated wastewater for irrigation, which is a true "win-win" solution. In contrast, destroying the law to advance the county's "right to pollute" the ocean is a "lose-lose" for both the county and the people.

We need Maui County's elected representatives to show leadership and turn this situation around. It's time to stop the reckless attack on the law and focus on building a responsible wastewater system of the future at the Lahaina facility.

We don't want Maui to do the dirty work with the Trump administration for our nation's worst polluters by dismantling the nation's bedrock clean water law.

We need your help before Maui County goes down in history as the champion for water pollution in the United States. Please, create a lasting, positive legacy by focusing on the solutions for this pollution problem and upholding—not destroying—the legal protections of clean water for Maui, Hawai'i, and the entire nation.

Dear Councilmember Mike Molina,

Hi, my name is V Pahia and I live in Hau'ula HI. I am submitting this testimony for the September 3, 2019 committee meeting on item GET-26 (settlement in Hawai'i Wildlife Fund, et al., v. County of Maui).

Aloha,

As a resident of Hawai'i, I urge you to withdraw the appeal to the Supreme Court, focus on solutions for wastewater pollution, and stop the damage to priceless ocean and reef resources. The county should invest in Maui's future by building the necessary infrastructure to reuse the Lahaina facility's treated wastewater for irrigation, which is a true "win-win" solution. In contrast, destroying the law to advance the county's "right to pollute" the ocean is a "lose-lose" for both the county and the people.

We need Maui County's elected representatives to show leadership and turn this situation around. It's time to stop the reckless attack on the law and focus on building a responsible wastewater system of the future at the Lahaina facility.

Dear Councilmember Alice Lee,

Hi, my name is Diane Ware and I live in Mountain View, Hawaii. I am submitting this testimony for the September 3, 2019 committee meeting on item GET-26 (settlement in Hawai'i Wildlife Fund, et al., v. County of Maui).

I live in Hawaii and I won't swim in these waters and tell visitors about the pollution and loss of reef quality.

As a resident of Hawai'i, I urge you to withdraw the appeal to the Supreme Court, focus on solutions for wastewater pollution, and stop the damage to priceless ocean and reef resources. The county should invest in Maui's future by building the necessary infrastructure to reuse the Lahaina facility's treated wastewater for irrigation, which is a true "win-win" solution. In contrast, destroying the law to advance the county's "right to pollute" the ocean is a "lose-lose" for both the county and the people.

We need Maui County's elected representatives to show leadership and turn this situation around. It's time to stop the reckless attack on the law and focus on building a responsible wastewater system of the future at the Lahaina facility.

We don't want Maui to do the dirty work with the Trump administration for our nation's worst polluters by dismantling the nation's bedrock clean water law.

We need your help before Maui County goes down in history as the champion for water pollution in the United States. Please, create a lasting, positive legacy by focusing on the solutions for this pollution problem and upholding—not destroying—the legal protections of clean water for Maui, Hawai'i, and the entire nation.

Regards,  
Diane Ware

Dear Councilmember Alice Lee,

Hi, my name is Tom Gourley and I live in Lahaina, Hawaii. I am submitting this testimony for the September 3, 2019 committee meeting on item GET-26 (settlement in Hawai'i Wildlife Fund, et al., v. County of Maui).

I have friends who have time shares on Kahekili Beach. They don't want to come visit due to the pollution the Lahaina injection well is causing. Please settle the suit and find other ways to use the treated water. There are many possibilities which would be useful for agriculture.

As a resident of Hawai'i, I urge you to withdraw the appeal to the Supreme Court, focus on solutions for wastewater pollution, and stop the damage to priceless ocean and reef resources. The county should invest in Maui's future by building the necessary infrastructure to reuse the Lahaina facility's treated wastewater for irrigation, which is a true "win-win" solution. In contrast, destroying the law to advance the county's "right to pollute" the ocean is a "lose-lose" for both the county and the people.

Dear Councilmember Alice Lee,

Hi, my name is Josie Simpson and I live in Haiku-pauwela, Hawaii. I am submitting this testimony for the September 3, 2019 committee meeting on item GET-26 (settlement in Hawai'i Wildlife Fund, et al., v. County of Maui).

As a resident of Hawai'i, I urge you to withdraw the appeal to the Supreme Court, focus on solutions for wastewater pollution, and stop the damage to priceless ocean and reef resources. The county should invest in Maui's future by building the necessary infrastructure to reuse the Lahaina facility's treated wastewater for irrigation, which is a true "win-win" solution. In contrast, destroying the law to advance the county's "right to pollute" the ocean is a "lose-lose" for both the county and the people.

We need Maui County's elected representatives to show leadership and turn this situation around. It's time to stop the reckless attack on the law and focus on building a responsible wastewater system of the future at the Lahaina facility.

We don't want Maui to do the dirty work with the Trump administration for our nation's worst polluters by dismantling the nation's bedrock clean water law.

We need your help before Maui County goes down in history as the champion for water pollution in the United States. Please, create a lasting, positive legacy by focusing on the solutions for this pollution problem and upholding—not destroying—the legal protections of clean water for Maui, Hawai'i, and the entire nation.

Regards,

Dear Maui County GET Committee,

Hi, my name is Nina Monasevitch and I live in Lihue, Hawaii. I am submitting this testimony for the September 3, 2019 committee meeting on item GET-26 (settlement in Hawai'i Wildlife Fund, et al., v. County of Maui).

The Maui Nui area is the preferred mating and birthing grounds for the North Pacific Humpback whales. As you know their numbers have declined 50-80% in the last 4 years. And they are in very poor body condition and emaciated. These magnificent mammals need clean water to survive. They, and all Hawaii marine life, require you to do the right thing. The ocean is literally our life support system, both biologically and economically. Malama Pono!

As a resident of Hawai'i, I urge you to withdraw the appeal to the Supreme Court, focus on solutions for wastewater pollution, and stop the damage to priceless ocean and reef resources. The county should invest in Maui's future by building the necessary infrastructure to reuse the Lahaina facility's treated wastewater for irrigation, which is a true "win-win" solution. We need Maui County's elected representatives to show leadership and turn this situation around. It's time to stop the reckless attack on the law and focus on building a responsible wastewater system of the future at the Lahaina facility.

We don't want Maui to do the dirty work with the Trump administration for our nation's worst polluters by dismantling the nation's bedrock clean water law.

We need your help before Maui County goes down in history as the champion for water pollution in the United States. Please, create a lasting, positive legacy by focusing on the solutions for this pollution problem and upholding—not destroying—the legal protections of clean water for Maui, Hawai'i, and the entire nation.

Dear Maui County GET Committee,

Hi, my name is Sanford Yee and I live in Honolulu, Hawaii. I am submitting this testimony for the September 3, 2019 committee meeting on item GET-26 (settlement in Hawai'i Wildlife Fund, et al., v. County of Maui).

Water is life! Please stop the pollution!

As a resident of Hawai'i, I urge you to withdraw the appeal to the Supreme Court, focus on solutions for wastewater pollution, and stop the damage to priceless ocean and reef resources. The county should invest in Maui's future by building the necessary infrastructure to reuse the Lahaina facility's treated wastewater for irrigation, which is a true "win-win" solution. In contrast, destroying the law to advance the county's "right to pollute" the ocean is a "lose-lose" for both the county and the people.

We need Maui County's elected representatives to show leadership and turn this situation around. It's time to stop the reckless attack on the law and focus on building a responsible wastewater system of the future at the Lahaina facility.

We don't want Maui to do the dirty work with the Trump administration for our nation's worst polluters by dismantling the nation's bedrock clean water law.

We need your help before Maui County goes down in history as the champion for water pollution in the United States. Please, create a lasting, positive legacy by focusing on the solutions for this pollution problem and upholding—not destroying—the legal protections of clean water for Maui, Hawai'i, and the entire nation.

**From:** Chip Lange <clange98@yahoo.com>  
**Sent:** Thursday, August 29, 2019 2:33 PM  
**To:** GET Committee  
**Subject:** Kahekili Reef

Hello--

I am a partial landowner on Kahekili Reef and my family of 6 has been visiting every July for the last 12 years. I have 4 certified divers in my family and we enjoy the reef every morning in July when we are lucky enough to visit. Over the last 12 years I've seen the reef deteriorate before my eyes. There is less wildlife. Less coral and much less vibrant environment. It's a tragedy. The local businesses suffer. That reef is the primary draw to the area. Frankly, there is better diving and snorkeling elsewhere on the Island and more importantly elsewhere in the world. We spent spring break in St. John to explore if it would be better to holiday in the Caribbean vs Hawaii. The water is cleaner. The reefs more healthy and the wildlife more plentiful.

I am writing in support of Maui County settling the Lahaina Injection Well case (HAWAII WILDLIFE FUND, ET AL. V. COUNTY OF MAUI, RELATING TO THE CLEAN WATER ACT).

Both the Hawaii district court and Ninth Circuit appeals court have already ruled that the County must get a permit under the Clean Water Act to continue discharging treated wastewater into the groundwater via the Lahaina injection wells. I ask the County to withdraw its appeal and work with state and community stakeholders to modernize the treatment facility and invest in water reuse solutions.

Settling the case would end a detrimental challenge against the Clean Water Act and allow the County to avoid further penalties as long as it diligently works toward solutions. The Department of Health has already made clear that private cesspools and septic tanks would not need to get NPDES permits, so there is no risk to individual homeowners.

However, if the County continues its appeal, it threatens to gut the federal Clean Water Act. If the County wins the case at the Supreme Court, polluters across the United States would be free to contaminate water bodies as long as they release their waste from a pipe just short of the waters' edge or into the ground. The Trump Administration and industrial polluters like pipeline companies, the oil and gas industry, manufacturers, coal-burning utilities, and mining associations are all hoping that you will continue the appeal. As elected officials, I hope you will do the right thing, not for the Trump Administration and industrial polluters, but for public trust waters and present and future generations in Maui and all of Hawai'i.

Maui County has a history of being leaders in environmental protection, and you can uphold this reputation and continue this legacy by withdrawing the appeal. Please help to uphold the Clean Water Act and protect Maui's reefs, which not only provide many economic benefits, but hold cultural and environmental significance for all of Hawai'i. I ask you to support the settlement of the Lahaina Injection Wells case and withdrawal of the appeal.

Thank you for listening and please take the appropriate action to remedy this issue.

Dear Councilmember Alice Lee,

Hi, my name is Nancy Davlantes and I live in Kaneohe, Hawaii. I am submitting this testimony for the September 3, 2019 committee meeting on item GET-26 (settlement in Hawai'i Wildlife Fund, et al., v. County of Maui).

You can set an example for standing up for clean water, healthy reefs, and healthy wildlife and people. Please do the right thing.

As a resident of Hawai'i, I urge you to withdraw the appeal to the Supreme Court, focus on solutions for wastewater pollution, and stop the damage to priceless ocean and reef resources. The county should invest in Maui's future by building the necessary infrastructure to reuse the Lahaina facility's treated wastewater for irrigation, which is a true "win-win" solution. In contrast, destroying the law to advance the county's "right to pollute" the ocean is a "lose-lose" for both the county and the people.

We need Maui County's elected representatives to show leadership and turn this situation around. It's time to stop the reckless attack on the law and focus on building a responsible wastewater system of the future at the Lahaina facility.

We don't want Maui to do the dirty work with the Trump administration for our nation's worst polluters by dismantling the nation's bedrock clean water law.

We need your help before Maui County goes down in history as the champion for water pollution in the United States. Please, create a lasting, positive legacy by focusing on the solutions for this pollution problem and upholding—not destroying—the legal protections of clean water for Maui, Hawai'i, and the entire nation.

Regards,  
Nancy Davlantes  
45-571 Awanene Pl, Apt. A

Dear Councilmember Alice Lee,

Hi, my name is Joy Morimoto and I live in Honolulu, Hawaii. I am submitting this testimony for the September 3, 2019 committee meeting on item GET-26 (settlement in Hawai'i Wildlife Fund, et al., v. County of Maui).

I am proud to be born and raised in Hawai'i! Please do your utmost to protect our environment for the present and the future and invest in modernizing sewage treatment Practices and facilities in our state, starting with the district you represent.

As a resident of Hawai'i, I urge you to withdraw the appeal to the Supreme Court, focus on solutions for wastewater pollution, and stop the damage to priceless ocean and reef resources. The county should invest in Maui's future by building the necessary infrastructure to reuse the Lahaina facility's treated wastewater for irrigation, which is a true "win-win" solution. In contrast, destroying the law to advance the county's "right to pollute" the ocean is a "lose-lose" for both the county and the people.

We need Maui County's elected representatives to show leadership and turn this situation around. It's time to stop the reckless attack on the law and focus on building a responsible wastewater system of the future at the Lahaina facility.

We don't want Maui to do the dirty work with the Trump administration for our nation's worst polluters by dismantling the nation's bedrock clean water law.

We need your help before Maui County goes down in history as the champion for water pollution in the United States. Please, create a lasting, positive legacy by focusing on the solutions for this pollution problem and upholding—not destroying—the legal protections of clean water for Maui, Hawai'i, and the entire nation.

Regards,  
Joy Morimoto

Dear Councilmember Mike Molina,

Hi, my name is Jennifer Watabayashi and I live in Waipahu, Hawaii. I am submitting this testimony for the September 3, 2019 committee meeting on item GET-26 (settlement in Hawai'i Wildlife Fund, et al., v. County of Maui).

As a resident of Hawai'i, I urge you to withdraw the appeal to the Supreme Court, focus on solutions for wastewater pollution, and stop the damage to priceless ocean and reef resources. The county should invest in Maui's future by building the necessary infrastructure to reuse the Lahaina facility's treated wastewater for irrigation, which is a true "win-win" solution. In contrast, destroying the law to advance the county's "right to pollute" the ocean is a "lose-lose" for both the county and the people.

We need Maui County's elected representatives to show leadership and turn this situation around. It's time to stop the reckless attack on the law and focus on building a responsible wastewater system of the future at the Lahaina facility.

We don't want Maui to do the dirty work with the Trump administration for our nation's worst polluters by dismantling the nation's bedrock clean water law.

We need your help before Maui County goes down in history as the champion for water pollution in the United States. Please, create a lasting, positive legacy by focusing on the solutions for this pollution problem and upholding—not destroying—the legal protections of clean water for Maui, Hawai'i, and the entire nation.

Regards,  
Jennifer Watabayashi

Dear Maui County GET Committee,

Hi, my name is Beth Anderson and I live in Kailua, Hawaii. I am submitting this testimony for the September 3, 2019 committee meeting on item GET-26 (settlement in Hawai'i Wildlife Fund, et al., v. County of Maui).

Our coral reefs, marine life, and oceans are in dire trouble already from global warming and sea temperature rise. Sewage flowing into the ocean is unacceptable, irresponsible, criminal, and amounts to severe abuse of our ocean waters and species. Modernize the plant, take care of our oceans and the planet. No excuses.

As a resident of Hawai'i, I urge you to withdraw the appeal to the Supreme Court, focus on solutions for wastewater pollution, and stop the damage to priceless ocean and reef resources. The county should invest in Maui's future by building the necessary infrastructure to reuse the Lahaina facility's treated wastewater for irrigation, which is a true "win-win" solution. We don't want Maui to do the dirty work with the Trump administration for our nation's worst polluters by dismantling the nation's bedrock clean water law.

We need your help before Maui County goes down in history as the champion for water pollution in the United States. Please, create a lasting, positive legacy by focusing on the solutions for this pollution problem and upholding—not destroying—the legal protections of clean water for Maui, Hawai'i, and the entire nation.

Dear Maui County GET Committee,

Hi, my name is Shiela Spruill and I live in Honolulu, Hawaii. I am submitting this testimony for the September 3, 2019 committee meeting on item GET-26 (settlement in Hawai'i Wildlife Fund, et al., v. County of Maui).

As a resident of Hawai'i, I urge you to withdraw the appeal to the Supreme Court, focus on solutions for wastewater pollution, and stop the damage to priceless ocean and reef resources. The county should invest in Maui's future by building the necessary infrastructure to reuse the Lahaina facility's treated wastewater for irrigation, which is a true "win-win" solution. In contrast, destroying the law to advance the county's "right to pollute" the ocean is a "lose-lose" for both the county and the people.

We need Maui County's elected representatives to show leadership and turn this situation around. It's time to stop the reckless attack on the law and focus on building a responsible wastewater system of the future at the Lahaina facility.

We don't want Maui to do the dirty work with the Trump administration for our nation's worst polluters by dismantling the nation's bedrock clean water law.

We need your help before Maui County goes down in history as the champion for water pollution in the United States. Please, create a lasting, positive legacy by focusing on the solutions for this pollution problem and upholding—not destroying—the legal protections of clean water for Maui, Hawai'i, and the entire nation.
