Subject: Gerri Lewis - Board of Ethics

To Whom It May Concern,

I have known Gerri Lewis for just about 10 years now. We met while I was working at Nick's Fishmarket. Her husband also worked there and we quickly became somewhat of a family. Gerri has always been warm and welcoming and has such a sweet and genuine way about her. I can vouch that she is a person of morals and integrity and she would be an asset to the Board of Ethics.

A few years ago my daughter was having trouble in math and she immediately took her in to her Kumon program and helped her bring her grade up. She personally tutored her and made sure she was understanding everything and she quickly began to excel. It wasn't long after that she took in my youngest son to the program and helped him bring his reading level up.

We are honored to call Gerri, and her family, our friends!

I feel that Gerri is trustworthy, dependable, honest, and ethical. She will do everything in her power to make the right calls and do what is best for everyone involved.

Please feel free to reach out if you need any further information.

Aloha,

--
