Aloha Chair, Vice Chair, and Members of the Maui County Housing and Land Use Committee,
I'm writing in **strong support of Bill 9**, which would phase out short-term rentals (STRs) in apartment-zoned districts. This bill is an essential component to addressing Maui's housing crisis and protecting our most vital resource: water.

The 2023 Lāhainā fire exposed long-standing issues—privatized water systems, diverted streams, and overdevelopment have pushed West Maui to the edge. STRs, originally meant for housing, now operate as commercial businesses, consuming high volumes of water while local families remain displaced. Returning STRs to long-term housing helps protect water access, push back against inequality, and put community needs first. With over 6,000 STRs on the Minatoya List, we have a clear opportunity to increase housing stock without using more water.

I urge you to stand with Lāhainā Strong and pass Bill 9.

Ola i ka Wai — Water is Life.

Sincerely,

Sven Sorge

Aloha Chair, Vice Chair, and Members of the Maui County Housing and Land Use Committee,

As a tourist of Hawai'i and as a person who loves the island and the people of it, I'm writing in **strong support of Bill 9**, which would phase out short-term rentals (STRs) in apartment-zoned districts. This bill is an essential component to addressing Maui's housing crisis and protecting our most vital resource: water.

The 2023 Lāhainā fire exposed long-standing issues—privatized water systems, diverted streams, and overdevelopment have pushed West Maui to the edge. STRs, originally meant for housing, now operate as commercial businesses, consuming high volumes of water while local families remain displaced.

Hawai'ian families MUST be prioritized when it comes to housing. If not for the reason that they are the life and blood of the island, then for the reason that they are the ones that keep all of those luxury hotels operating. You need affordable housing for the people who provide services to all of the tourists that flock to the islands for the "Hawai'ian experience." Who is Hawai'i without water and without her people?

Returning STRs to long-term housing helps protect water access, push back against inequality, and put community needs first. With over 6,000 STRs on the Minatoya List, we have a clear opportunity to increase housing stock without using more water.

I urge you to stand with Lāhainā Strong and pass Bill 9.

Ola i ka Wai — Water is Life.

Sincerely,

Alexandra Perez Urbina, Portland, OR

Water rights in Hawaii historically were managed and considered sacred, as water feeds the lohi which fed the people! For too long moneyed entities (Plantation, large scale developers of hotels, golf courses and planned upscale neighborhoods) have not shared in the Hawaiian value of equally sharing water. The time to create fairness and equality of this issue is now for West Maui and all of our island communities!

Ola i ka Wai — Water is Life.

Aloha Chair, Vice Chair, and Members of the Maui County Housing and Land Use Committee,

I'm writing in strong support of Bill 9, which would phase out short-term rentals (STRs) in apartment-zoned districts. This bill is an essential component to addressing Maui's housing crisis and protecting your most vital resource: water.

I have in the past visited Hawaii and stayed in STRs, unaware of the harm it could be doing. I now know that while tourism is important, local communities have to be protected. Tourists like me who value what makes Maui special will have to put our money where our mouth is and pay a premium, not treat these islands as disposable. It is the only way to keep Maui's beautiful land and people healthy in the long term.

The 2023 Lāhainā fire exposed long-standing issues—privatized water systems, diverted streams, and overdevelopment have pushed West Maui to the edge. STRs, originally meant for housing, now operate as commercial businesses, consuming high volumes of water while local families remain displaced.

Returning STRs to long-term housing helps protect water access, push back against inequality, and put community needs first. With over 6,000 STRs on the Minatoya List, we have a clear opportunity to increase housing stock without using more water.

Aloha, I strongly support Bill 9. It is outrageous that Native Hawaiians have to relocate from their homeland because of the STRs that price them out. The local residents of Maui especially the ones who lost their homes in the fire should be priority for rentals that they can AFFORD.

This situation is the result of capitalism that is out of control. People of this 'aina MUST be able to live here comfortably. The County Council must uphold the needs of these native people. Sorry 94% ers who are not from here. It's time for priorities to change.

Aloha Maui neighbors,

I support Bill 9 and urge you to do so as well.

Most of these Short term rental properties are owned by investors not living in Hawaii. I'm sorry, but they need to rent to the people that live and work here first. We have a housing crisis on every island for the people that work here and try to live here.

It is an island wide crisis.

Stand up for the local people. Let them stay and work here. They are needed!

Mahalo,
