Subject: KCA testimony in support of PC-20 for 8/30/18 9:00 AM

Aloha Chair King and Committee members
Mike Moran for Kihei Community Association, (KCA) testifying in support of (PC-20) to adopt this resolution

Last week South Maui had a halo surrounding it as we were spared, while our neighbors in Lahaina were devastated by Satan like horrors of fire, as they were prepared for potential hurricane, as a abominable example of what may occur, even if you have worked to be primed.

So while there are no guarantees it is certainly prudent to take actions to counter forces of harm and danger when we can, such as being informed and prepared for the oncoming sea level rise. We express our thanks to our member King for introducing this resolution on this vital matter, and while the concern is world wide, we believe we have to approach it locally. For South Maui we already see the erosion of parts of SKR on the northern end. For NKR at its elevation and location, how long before it is continually flooded and impassable. We trust you and all the members have seen the report. We are already very late, and while there are no guarantees, we need to take prudent action when and how we can. Please say yes. Mahalo.

Mike Moran President Kihei Community Association
